

March 4th 2026

COMMON COUNCIL REGULAR MEETING AGENDA

AMENDED

Date: Wednesday March 4, 2026
Time: 6:00 PM
Location: City Hall Council Chambers
Watch Online: <https://www.youtube.com/@CityofIthacaPublicMeetings>

1. **Call to Order (10 Min)**
 - 1.1. Emergency Evacuation Notice
 - 1.2. Agenda Review
 - 1.3. Reports from Municipal Officials
2. **Proclamations and Awards (10 Min)**
 - 2.1. Employee Quarterly Recognition
3. **Review and Approval of Minutes (5 Min)**
 - 3.1. February 4th 2026 Common Council Meeting Minutes
4. **Petitions and Hearings of Persons Before Council (60 Min)**
 - 4.1. Statements From The Public
 - 4.2. Privilege Of The Floor- Comments From Council & Mayor
5. **Consent Agenda (5 Min)**
 - 5.1. [2026 SEQR Lead Agency Concurrence](#)
 - 5.2. [Raw Water Transmission Main-SEQR Lead Agency](#)
 - 5.3. [Amendment to 2026 Authorized Personnel Roster- IYB](#)
6. **Order of Business- Sustainability (20 Min)**
 - 6.1. [Bond Authorization for "Green Hydrogen as a Non-Wires Alternative" Project](#)
7. **Order of Business- Finance & Administration (20Min)**
 - 7.1. [Select Committee - Rules Committee and Order](#)
8. **Order of Business- Economic & Community Development (20 Min)**
 - 8.1. [Public Art Amendment- Reawakening Mural Contract](#)
9. **Order Of Business- Quality of Life and Human Service (30Min)**
 - 9.1. [Coordinated Unhoused Services Planning](#)
10. **Member Filed- Public Safety (20 Min)**
 - 10.1. [Flock Safety](#)
11. **Member Filed- Housing (20 Min)**
 - 11.1. [REST- PASHNY Acts.](#)
12. **Member Filed- Finance & Administration (20 Min)**
 - 12.1. [Petitions and Hearings of Persons Before Council](#)
13. **Member Filed- Human Services & Quality of Life (20 Min)**
 - 13.1. [Dignity Not Detention Act and New York for All Act](#)
14. **Mayor Appointments (10 Min)**
 - 14.1. [Planning Board Appointment](#)

15. City Manager Report (25 Min)

15.1. [City Manager's Monthly Report- March 2026](#)

16. Reports from Council and Staff (10Min)

16.1. Report from City Controller

17. Executive Session (If Needed)

17.1. Executive Session to discuss Collective Negotiations

18. Meeting Wrap Up

Public Comment Forum

The public can provide short statements during this portion of the meeting. 3 minutes is the maximum time allotted, but the chair reserves the right to modify the amount of time per individual at the start of the meeting. Only the first hour of the meeting is set aside for Public Comment. **Groups of 3 or more speakers are allotted more speaking time.**

For Longer Speaking Time - Multiple speakers on the same topic can speak as a group with one Designated Speaker to represent the Group. This will give you more time to share your thoughts and concerns during the Public Comment Forum.

3-4 Persons with One Designated Speaker - Allotted 5 minutes

5 or More Persons with One Designated Speaker - Allotted 7 minutes

Can't Come to the Meeting but still want to speak?

Register to Speak Virtually - <https://tinyurl.com/7ts9zmku>

Attending the Meeting to Speak in Person? Pre-Registration Not Required

Comment Cards are provided to those who attend in person. Once you have filled out your Comment Card, please hand your card to the Clerk. Your name will be called to speak in the order the cards are received.

Please Note Comment Cards will be accepted up until the Public Comment Forum begins or a maximum of 30 speakers, whichever comes first.

Once we have reached a maximum of 30 speakers, you can submit your comment using the Written Comment Link Below.

Want to Submit a Comment and Not Speak in Person?

To Submit Written Comments - <https://tinyurl.com/mr9kdhw8>

*Written comments submitted will be compiled and entered into the record.

MEMORANDUM

TO: Common Council
FROM: Megan Wilson
DATE: March 4, 2026
RE: 2026 SEQR Lead Agency Concurrence
ITEM #: 5.1

Consent Agenda- 2026 Annual Common Council Concurrence that the City of Ithaca Planning and Development Board be Lead Agency in Environmental Review for Site Plan Review Projects for which the Common Council is an Involved Agency. - This annual resolution provides Common Council's consent for the Planning & Development Board to act as lead agency for environmental review for site plan/subdivision reviews where Council is also an involved agency. The Common Council may continue to receive all project materials and have the opportunity to participate in the environmental review process.

2026 Annual Common Council Concurrence that the City of Ithaca Planning and Development Board be Lead Agency in Environmental Review for Site Plan Review Projects for which the Common Council is an Involved Agency Resolution

WHEREAS: 6 NYCRR Part 617 of the State Environmental Quality Review Law and Chapter 176.6 of the City Code, Environmental Quality Review, require that a lead agency be established for conducting environmental review of projects in accordance with local and state environmental law, and

WHEREAS, State Law specifies that, for actions governed by local environmental review, the lead agency shall be that local agency which has primary responsibility for approving and funding or carrying out the action, and

WHEREAS, State Law also specifies that when an agency proposes to directly undertake, fund or approve a Type I or Unlisted Action undergoing coordinated review with other involved agencies, it must notify them that a lead agency must be agreed upon within 30 calendar days of the date that the Environmental Assessment Form (EAF) or draft EIS was transmitted to them, and

WHEREAS, projects submitted to the Planning Board for Site Plan Review and Approval, at times involve approvals or funding from Common Council, making Council an involved agency in environmental review, and

WHEREAS, in accordance with the State Environmental Quality Review Law and the City of Ithaca Environmental Quality Review Ordinance, involved agencies are provided with project information and environmental forms for their review, as well as all environmental determinations, and

WHEREAS, Common Council did consent to the Planning & Development Board acting as Lead Agency in environmental review for site plan review projects for which Common Council has been identified as an Involved Agency since 2015, and

WHEREAS, in order to avoid delays in establishing a Lead Agency and to make the environmental review process more efficient, it is desirable to continue the agreement in which the Planning Board will assume Lead Agency status for such projects; therefore be it

RESOLVED, that Common Council does hereby consent to the Planning & Development Board acting as Lead Agency in environmental review for site plan review projects for which Common Council has been identified as an Involved Agency through December 31, 2026; and, be it further

RESOLVED, that for any future project Common Council may withhold or withdraw its consent should it so desire.

Date: November 7, 2025

Re: 2026 Annual Council Concurrence that the Planning Board be Lead Agency in Environmental Review for Site Plan Review Projects for which the Common Council is an Involved Agency

Annually, Common Council passes a resolution concurring that the Planning Board will be Lead Agency in environmental review for site plan review projects for which the Common Council is an involved agency. Examples of such projects include the Waters Edge Project, Southworks District Project, and Cayuga Park. As per the previously adopted resolutions, this arrangement ends on December 31 of each year and must be renewed annually. Please find enclosed a proposed resolution which extends this arrangement to December 31, 2026.

The purpose of this arrangement is to make the environmental review process more efficient while, at the same time, keeping Council informed of its potential role in the environmental review of site plan projects. Environmental forms and project information would continue to be forwarded directly to Council members without the need to coordinate with a monthly meeting schedule. This prevents the difficulty of the 30-day deadline to establish Lead Agency but preserves Council ability to *not concur* should that be the preferred course of action for any future project. As an involved agency, Council could, if desired, provide input to the Lead Agency. All comments from involved agencies are addressed during the environmental review.

The Planning Board also has this arrangement with the Board of Zoning Appeals.

If you have any questions, please contact me at 274-6516

MEMORANDUM

TO: Common Council
FROM: Brodey Zarzynski
DATE: March 4, 2026
RE: Raw Water Transmission Main-SEQR Lead Agency
ITEM #: 5.2

Consent Agenda- Resolution of the City of Ithaca Common Council in establishing the City of Ithaca as "lead agency" pursuant to the State Environmental Quality Review Act relative to the raw water transmission main improvements project

ATTACHMENTS:

[Lead Agency Resolution_Brodey Zarzynski.pdf](#)
[RW Transmission Improvements_signed SEQR_Comp_Brodey Zarzynski.pdf](#)

RE: RESOLUTION OF THE CITY OF ITHACA COMMON COUNCIL IN ESTABLISHING THE CITY OF ITHACA AS "LEAD AGENCY" PURSUANT TO THE STATE ENVIRONMENTAL QUALITY REVIEW ACT RELATIVE TO THE RAW WATER TRANSMISSION MAIN IMPROVEMENTS PROJECT

WHEREAS, the City of Ithaca (hereinafter the "City") proposes to undertake construction of approximately 550 ft of new 24-inch ductile iron pipe to replace a portion of their existing 24-inch raw water transmission main (circa 1911) that is currently exposed and vulnerable as a result of soil erosion; and

WHEREAS, pursuant to the State Environmental Quality Review Act (hereinafter "SEQRA"), and the City of Ithaca Environmental Quality Review Ordinance (CEQR), the City caused to be prepared Part 1 of a Full Environmental Assessment Form dated January 22, 2026, for the Project (hereinafter "EAF"); and

WHEREAS, the EAF, having been reviewed by the City, was deemed adequate and accurate relative to the Project; and

WHEREAS, the Project is an "Unlisted Action" pursuant to 6 NYCRR §617.2(at) and §176-2 of the City of Ithaca Code, therefore a coordinated review will be undertaken; and

WHEREAS, the City identified the Tompkins County Department of Health as a SEQRA/CEQR Involved Agency relative to the Project (hereinafter the "Involved Agency"); and

WHEREAS, in accordance with the provisions of 6 NYCRR Part 617 (SEQRA), and Section 176 of the City of Ithaca Code (CEQR), the City intends to establish itself Lead Agency with respect to the Project and to give notice of such establishment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE CITY OF ITHACA COMMON COUNCIL AS FOLLOWS :

1. The City hereby designates its intention to serve as Lead Agency for the proposed action and will circulate Lead Agency Notices along with Part 1 of the Full Environmental Assessment Form and any other supporting documentation to all Involved Agencies. These agencies shall be given 30 days from the mailing of the Lead Agency Notice to consent.
2. This Resolution shall take effect immediately.

This decision was adopted at a regular meeting of the City of Ithaca Common Council held on the 4th day of March 2026.

Full Environmental Assessment Form
Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project: Raw Water Transmission Main Improvements		
Project Location (describe, and attach a general location map): 1529 Slaterville Rd, Ithaca, NY 14850 - Town of Ithaca Tax Parcel 55.-1-1 (See Figure 1 for Site Location)		
Brief Description of Proposed Action (include purpose or need): The City of Ithaca is proposing to install approximately 550 ft of new 24-inch ductile iron pipe to replace an existing segment that is currently exposed as a result of erosion.		
Name of Applicant/Sponsor: City of Ithaca	Telephone: E-Mail:	
Address: 108 E Green Street		
City/PO: Ithaca	State: New York	Zip Code: 14850
Project Contact (if not same as sponsor; give name and title/role): Scott Gibson, Assistant Superintendent DPW, City of Ithaca – Division of W&S	Telephone: 607-272-1717 (O), 607-228-0662 (M) E-Mail: sgibson@cityofithaca.org	
Address: 510 1st Street		
City/PO: Ithaca	State: New York	Zip Code: 14850
Property Owner (if not same as sponsor):	Telephone: E-Mail:	
Address:		
City/PO:	State:	Zip Code:

B. Government Approvals

B. Government Approvals, Funding, or Sponsorship. (“Funding” includes grants, loans, tax relief, and any other forms of financial assistance.)

Government Entity	If Yes: Identify Agency and Approval(s) Required	Application Date (Actual or projected)
a. City Counsel, Town Board, ☒ Yes ☐ No or Village Board of Trustees	City of Ithaca Common Counsel (Sponsorship)	March 2026
b. City, Town or Village ☐ Yes ☒ No Planning Board or Commission		
c. City, Town or ☐ Yes ☒ No Village Zoning Board of Appeals		
d. Other local agencies ☐ Yes ☒ No		
e. County agencies ☒ Yes ☐ No	Tompkins County Department of Heath (Approval of Plans)	February 2026
f. Regional agencies ☐ Yes ☒ No		
g. State agencies ☐ Yes ☒ No		
h. Federal agencies ☐ Yes ☒ No		
i. Coastal Resources. i. Is the project site within a Coastal Area, or the waterfront area of a Designated Inland Waterway? ☐ Yes ☒ No ii. Is the project site located in a community with an approved Local Waterfront Revitalization Program? ☐ Yes ☒ No iii. Is the project site within a Coastal Erosion Hazard Area? ☐ Yes ☒ No		

C. Planning and Zoning

C.1. Planning and zoning actions.

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? ☐ Yes ☒ No

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part 1

C.2. Adopted land use plans.

a. Do any municipally- adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? ☒ Yes ☐ No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located? ☐ Yes ☒ No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway; Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) ☒ Yes ☐ No

If Yes, identify the plan(s):

The site is identified as a Unique Natural Area in the Tompkins County Conservation Plan; however no specific recommendations related to the proposed action are included within the Planning Document.

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? ☐ Yes ☒ No

If Yes, identify the plan(s):

C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. ☒ Yes ☐ No
If Yes, what is the zoning classification(s) including any applicable overlay district?

Town of Ithaca: Zoning District: Conservation (C)

b. Is the use permitted or allowed by a special or conditional use permit? ☒ Yes ☐ No

c. Is a zoning change requested as part of the proposed action? ☐ Yes ☒ No

If Yes,

i. What is the proposed new zoning for the site? _____

C.4. Existing community services.

a. In what school district is the project site located? Ithaca City School District

b. What police or other public protection forces serve the project site?

New York State Troopers, Tompkins County Sheriff

c. Which fire protection and emergency medical services serve the project site?

Ithaca Fire Department - District 9

d. What parks serve the project site?

No parks serve the Site.

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Municipal - Public Utility/Infrastructure

b. a. Total acreage of the site of the proposed action? ±611 acres

b. Total acreage to be physically disturbed? ±0.25 acres

c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? ±611 acres

c. Is the proposed action an expansion of an existing project or use? ☐ Yes ☒ No

i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % _____ Units: _____

d. Is the proposed action a subdivision, or does it include a subdivision? ☐ Yes ☒ No

If Yes,

i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)

ii. Is a cluster/conservation layout proposed? ☐ Yes ☐ No

iii. Number of lots proposed? _____

iv. Minimum and maximum proposed lot sizes? Minimum _____ Maximum _____

e. Will the proposed action be constructed in multiple phases? ☐ Yes ☒ No

i. If No, anticipated period of construction: 6 months

ii. If Yes:

- Total number of phases anticipated _____

- Anticipated commencement date of phase 1 (including demolition) _____ month _____ year

- Anticipated completion date of final phase _____ month _____ year

- Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases: _____

f. Does the project include new residential uses? ☐ Yes ☒ No If Yes, show numbers of units proposed.				
	<u>One Family</u>	<u>Two Family</u>	<u>Three Family</u>	<u>Multiple Family (four or more)</u>
Initial Phase	_____	_____	_____	_____
At completion	_____	_____	_____	_____
of all phases	_____	_____	_____	_____

g. Does the proposed action include new non-residential construction (including expansions)? ☐ Yes ☒ No If Yes,	
<i>i.</i> Total number of structures _____ <i>ii.</i> Dimensions (in feet) of largest proposed structure: _____ height; _____ width; and _____ length <i>iii.</i> Approximate extent of building space to be heated or cooled: _____ square feet	

h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage? ☐ Yes ☒ No If Yes,	
<i>i.</i> Purpose of the impoundment: _____ <i>ii.</i> If a water impoundment, the principal source of the water: ☐ Ground water ☐ Surface water streams ☐ Other specify: _____ <i>iii.</i> If other than water, identify the type of impounded/contained liquids and their source. _____ <i>iv.</i> Approximate size of the proposed impoundment. Volume: _____ million gallons; surface area: _____ acres <i>v.</i> Dimensions of the proposed dam or impounding structure: _____ height; _____ length <i>vi.</i> Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete): _____ _____	

D.2. Project Operations

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both? (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite) ☐ Yes ☒ No If Yes:	
<i>i.</i> What is the purpose of the excavation or dredging? _____ <i>ii.</i> How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site? • Volume (specify tons or cubic yards): _____ • Over what duration of time? _____ <i>iii.</i> Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them. _____ _____ _____	
<i>iv.</i> Will there be onsite dewatering or processing of excavated materials? ☐ Yes ☐ No If yes, describe. _____ _____ _____	
<i>v.</i> What is the total area to be dredged or excavated? _____ acres <i>vi.</i> What is the maximum area to be worked at any one time? _____ acres <i>vii.</i> What would be the maximum depth of excavation or dredging? _____ feet <i>viii.</i> Will the excavation require blasting? ☐ Yes ☐ No <i>ix.</i> Summarize site reclamation goals and plan: _____ _____ _____	

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area? ☐ Yes ☐ No If Yes:	
<i>i.</i> Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description): _____ _____	

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

iii. Will the proposed action cause or result in disturbance to bottom sediments? ☐ Yes ☐ No
If Yes, describe: _____

iv. Will the proposed action cause or result in the destruction or removal of aquatic vegetation? ☐ Yes ☐ No
If Yes:

- acres of aquatic vegetation proposed to be removed: _____
- expected acreage of aquatic vegetation remaining after project completion: _____
- purpose of proposed removal (e.g. beach clearing, invasive species control, boat access): _____
- proposed method of plant removal: _____
- if chemical/herbicide treatment will be used, specify product(s): _____

v. Describe any proposed reclamation/mitigation following disturbance: _____

c. Will the proposed action use, or create a new demand for water? ☐ Yes ☒ No
If Yes:

i. Total anticipated water usage/demand per day: _____ gallons/day

ii. Will the proposed action obtain water from an existing public water supply? ☐ Yes ☐ No
If Yes:

- Name of district or service area: _____
- Does the existing public water supply have capacity to serve the proposal? ☐ Yes ☐ No
- Is the project site in the existing district? ☐ Yes ☐ No
- Is expansion of the district needed? ☐ Yes ☐ No
- Do existing lines serve the project site? ☐ Yes ☐ No

iii. Will line extension within an existing district be necessary to supply the project? ☐ Yes ☐ No
If Yes:

- Describe extensions or capacity expansions proposed to serve this project: _____
- Source(s) of supply for the district: _____

iv. Is a new water supply district or service area proposed to be formed to serve the project site? ☐ Yes ☐ No
If Yes:

- Applicant/sponsor for new district: _____
- Date application submitted or anticipated: _____
- Proposed source(s) of supply for new district: _____

v. If a public water supply will not be used, describe plans to provide water supply for the project: _____

vi. If water supply will be from wells (public or private), what is the maximum pumping capacity: _____ gallons/minute.

d. Will the proposed action generate liquid wastes? ☐ Yes ☒ No
If Yes:

i. Total anticipated liquid waste generation per day: _____ gallons/day

ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each): _____

iii. Will the proposed action use any existing public wastewater treatment facilities? ☐ Yes ☐ No
If Yes:

- Name of wastewater treatment plant to be used: _____
- Name of district: _____
- Does the existing wastewater treatment plant have capacity to serve the project? ☐ Yes ☐ No
- Is the project site in the existing district? ☐ Yes ☐ No
- Is expansion of the district needed? ☐ Yes ☐ No

• Do existing sewer lines serve the project site? _____ • Will a line extension within an existing district be necessary to serve the project? _____ If Yes: • Describe extensions or capacity expansions proposed to serve this project: _____ _____ _____	☐ Yes ☐ No ☐ Yes ☐ No	
iv. Will a new wastewater (sewage) treatment district be formed to serve the project site? _____ If Yes: • Applicant/sponsor for new district: _____ • Date application submitted or anticipated: _____ • What is the receiving water for the wastewater discharge? _____	☐ Yes ☐ No	
v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge or describe subsurface disposal plans): _____ _____ _____		
vi. Describe any plans or designs to capture, recycle or reuse liquid waste: _____ _____ _____		
e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction? _____ If Yes: i. How much impervious surface will the project create in relation to total size of project parcel? _____ Square feet or _____ acres (impervious surface) _____ Square feet or _____ acres (parcel size) ii. Describe types of new point sources. _____ _____ iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)? _____ _____ • If to surface waters, identify receiving water bodies or wetlands: _____ _____ • Will stormwater runoff flow to adjacent properties? _____	☐ Yes ☒ No ☐ Yes ☐ No ☐ Yes ☐ No	
iv. Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater? _____	☐ Yes ☐ No	
f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations? _____ If Yes, identify: i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles) General construction-related heavy equipment. _____ ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers) _____ iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation) _____ _____	☒ Yes ☐ No	
g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit? _____ If Yes: i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year) _____ ii. In addition to emissions as calculated in the application, the project will generate: • _____ Tons/year (short tons) of Carbon Dioxide (CO₂) • _____ Tons/year (short tons) of Nitrous Oxide (N₂O) • _____ Tons/year (short tons) of Perfluorocarbons (PFCs) • _____ Tons/year (short tons) of Sulfur Hexafluoride (SF₆) • _____ Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs) • _____ Tons/year (short tons) of Hazardous Air Pollutants (HAPs)		☐ Yes ☒ No ☐ Yes ☐ No

h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? ☐ Yes ☒ No If Yes: i. Estimate methane generation in tons/year (metric): _____ ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring): _____			
i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? ☐ Yes ☒ No If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust): _____			
j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? ☐ Yes ☒ No If Yes: i. When is the peak traffic expected (Check all that apply): ☐ Morning ☐ Evening ☐ Weekend ☐ Randomly between hours of _____ to _____. ii. For commercial activities only, projected number of truck trips/day and type (e.g., semi trailers and dump trucks): _____ iii. Parking spaces: Existing _____ Proposed _____ Net increase/decrease _____ iv. Does the proposed action include any shared use parking? ☐ Yes ☐ No v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe: _____ vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site? ☐ Yes ☐ No vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? ☐ Yes ☐ No viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? ☐ Yes ☐ No			
k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? ☐ Yes ☒ No If Yes: i. Estimate annual electricity demand during operation of the proposed action: _____ ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other): _____ iii. Will the proposed action require a new, or an upgrade, to an existing substation? ☐ Yes ☐ No			
l. Hours of operation. Answer all items which apply. <table style="width: 100%; border: none;"> <tr> <td style="width: 50%; vertical-align: top;"> i. During Construction: • Monday - Friday: _____ 7AM-5PM • Saturday: _____ Not applicable • Sunday: _____ Not applicable • Holidays: _____ Not applicable </td> <td style="width: 50%; vertical-align: top;"> ii. During Operations: • Monday - Friday: _____ Same as existing use • Saturday: _____ Same as existing use • Sunday: _____ Same as existing use • Holidays: _____ Same as existing use </td> </tr> </table>		i. During Construction: • Monday - Friday: _____ 7AM-5PM • Saturday: _____ Not applicable • Sunday: _____ Not applicable • Holidays: _____ Not applicable	ii. During Operations: • Monday - Friday: _____ Same as existing use • Saturday: _____ Same as existing use • Sunday: _____ Same as existing use • Holidays: _____ Same as existing use
i. During Construction: • Monday - Friday: _____ 7AM-5PM • Saturday: _____ Not applicable • Sunday: _____ Not applicable • Holidays: _____ Not applicable	ii. During Operations: • Monday - Friday: _____ Same as existing use • Saturday: _____ Same as existing use • Sunday: _____ Same as existing use • Holidays: _____ Same as existing use		

m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both? ☒ Yes ☐ No If yes: i. Provide details including sources, time of day and duration: <u>Construction activities from the proposed project will generate temporary and intermittent increases in ambient noise levels in vicinity of the work area. Sources will include standard construction machinery (e.g., excavators, loaders, tools); however, will be short-term, and limited to authorized work hours.</u>	☒ Yes ☐ No
ii. Will the proposed action remove existing natural barriers that could act as a noise barrier or screen? ☐ Yes ☒ No Describe: _____	☐ Yes ☒ No
n. Will the proposed action have outdoor lighting? ☐ Yes ☒ No If yes: i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures: _____	☐ Yes ☒ No
ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen? ☐ Yes ☐ No Describe: _____	☐ Yes ☐ No
o. Does the proposed action have the potential to produce odors for more than one hour per day? ☐ Yes ☒ No If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures: _____	☐ Yes ☒ No
p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage? ☐ Yes ☒ No If Yes: i. Product(s) to be stored _____ ii. Volume(s) _____ per unit time _____ (e.g., month, year) iii. Generally, describe the proposed storage facilities: _____	☐ Yes ☒ No
q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? ☐ Yes ☒ No If Yes: i. Describe proposed treatment(s): _____	☐ Yes ☒ No
ii. Will the proposed action use Integrated Pest Management Practices? ☐ Yes ☐ No	☐ Yes ☐ No
r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? ☐ Yes ☒ No If Yes: i. Describe any solid waste(s) to be generated during construction or operation of the facility: • Construction: _____ tons per _____ (unit of time) • Operation : _____ tons per _____ (unit of time) ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste: • Construction: _____ • Operation: _____ iii. Proposed disposal methods/facilities for solid waste generated on-site: • Construction: _____ • Operation: _____	☐ Yes ☒ No

s. Does the proposed action include construction or modification of a solid waste management facility? ☐ Yes ☒ No

If Yes:

i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities): _____

ii. Anticipated rate of disposal/processing:

- _____ Tons/month, if transfer or other non-combustion/thermal treatment, or
- _____ Tons/hour, if combustion or thermal treatment

iii. If landfill, anticipated site life: _____ years

t. Will the proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste? ☐ Yes ☒ No

If Yes:

i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility: _____

ii. Generally describe processes or activities involving hazardous wastes or constituents: _____

iii. Specify amount to be handled or generated _____ tons/month

iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents: _____

v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility? ☐ Yes ☐ No

If Yes: provide name and location of facility: _____

If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility: _____

E. Site and Setting of Proposed Action

E.1. Land uses on and surrounding the project site			
a. Existing land uses.			
i. Check all uses that occur on, adjoining and near the project site.			
☐ Urban	☐ Industrial	☐ Commercial	☒ Residential (suburban)
☒ Forest	☐ Agriculture	☐ Aquatic	☒ Rural (non-farm)
ii. If mix of uses, generally describe: _____			
b. Land uses and coverytypes on the project site.			
Land use or Coverytype	Current Acreage	Acreage After Project Completion	Change (Acres +/-)
• Roads, buildings, and other paved or impervious surfaces			
• Forested			
• Meadows, grasslands or brushlands (non-agricultural, including abandoned agricultural)			
• Agricultural (includes active orchards, field, greenhouse etc.)			
• Surface water features (lakes, ponds, streams, rivers, etc.)			
• Wetlands (freshwater or tidal)			
• Non-vegetated (bare rock, earth or fill)			
• Other Describe: <u>Recreational trail and surrounding forest.</u>	±0.25	±0.25	0

v. Is the project site subject to an institutional control limiting property uses? ☐ Yes ☒ No													
• If yes, DEC site ID number: _____ • Describe the type of institutional control (e.g., deed restriction or easement): _____ • Describe any use limitations: _____ • Describe any engineering controls: _____ • Will the project affect the institutional or engineering controls in place? ☐ Yes ☐ No • Explain: _____													
E.2. Natural Resources On or Near Project Site													
a. What is the average depth to bedrock on the project site? _____ >6.5 feet													
b. Are there bedrock outcroppings on the project site? ☐ Yes ☒ No If Yes, what proportion of the site is comprised of bedrock outcroppings? _____ %													
c. Predominant soil type(s) present on project site: <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 70%;">Genesee silt loam</td> <td style="width: 30%; text-align: right;">±0.3 %</td> </tr> <tr> <td>Hudson silty clay loam</td> <td style="text-align: right;">±24 %</td> </tr> <tr> <td>Hudson and Dunkirk</td> <td style="text-align: right;">±76 %</td> </tr> </table>		Genesee silt loam	±0.3 %	Hudson silty clay loam	±24 %	Hudson and Dunkirk	±76 %						
Genesee silt loam	±0.3 %												
Hudson silty clay loam	±24 %												
Hudson and Dunkirk	±76 %												
d. What is the average depth to the water table on the project site? Average: _____ ±1.7 feet													
e. Drainage status of project site soils: <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 40%;">☒ Well Drained:</td> <td style="width: 60%; text-align: right;">±0.3 % of site</td> </tr> <tr> <td>☒ Moderately Well Drained:</td> <td style="text-align: right;">±99.7 % of site</td> </tr> <tr> <td>☐ Poorly Drained</td> <td style="text-align: right;">_____ % of site</td> </tr> </table>		☒ Well Drained:	±0.3 % of site	☒ Moderately Well Drained:	±99.7 % of site	☐ Poorly Drained	_____ % of site						
☒ Well Drained:	±0.3 % of site												
☒ Moderately Well Drained:	±99.7 % of site

f. Approximate proportion of proposed action site with slopes: <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 40%;">☒ 0-10%:</td> <td style="width: 60%; text-align: right;">±20 % of site</td> </tr> <tr> <td>☐ 10-15%:</td> <td style="text-align: right;">_____ % of site</td> </tr> <tr> <td>☒ 15% or greater:</td> <td style="text-align: right;">±80 % of site</td> </tr> </table>		☒ 0-10%:	±20 % of site	☐ 10-15%:	_____ % of site	☒ 15% or greater:	±80 % of site						
☒ 0-10%:	±20 % of site												
☐ 10-15%:	_____ % of site												
☒ 15% or greater:	±80 % of site												
g. Are there any unique geologic features on the project site? ☐ Yes ☒ No If Yes, describe: _____													
h. Surface water features.													
i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)? ☐ Yes ☒ No													
ii. Do any wetlands or other waterbodies adjoin the project site? ☒ Yes ☐ No													
If Yes to either <i>i</i> or <i>ii</i> , continue. If No, skip to E.2.i.													
iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency? ☒ Yes ☐ No													
iv. For each identified regulated wetland and waterbody on the project site, provide the following information: <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 10%;">• Streams:</td> <td style="width: 40%;">Name _____</td> <td style="width: 50%;">Classification _____</td> </tr> <tr> <td>• Lakes or Ponds:</td> <td>Name _____</td> <td>Classification _____</td> </tr> <tr> <td>• Wetlands:</td> <td>Name _____</td> <td>Approximate Size _____</td> </tr> <tr> <td>• Wetland No. (if regulated by DEC)</td> <td colspan="2">_____</td> </tr> </table>		• Streams:	Name _____	Classification _____	• Lakes or Ponds:	Name _____	Classification _____	• Wetlands:	Name _____	Approximate Size _____	• Wetland No. (if regulated by DEC)	_____	
• Streams:	Name _____	Classification _____											
• Lakes or Ponds:	Name _____	Classification _____											
• Wetlands:	Name _____	Approximate Size _____											
• Wetland No. (if regulated by DEC)	_____												
v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? ☐ Yes ☒ No If yes, name of impaired water body/bodies and basis for listing as impaired: _____													
i. Is the project site in a designated Floodway? ☐ Yes ☒ No													
j. Is the project site in the 100-year Floodplain? ☐ Yes ☒ No													
k. Is the project site in the 500-year Floodplain? ☐ Yes ☒ No													
l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer? ☐ Yes ☒ No If Yes:													
i. Name of aquifer: _____													

m. Identify the predominant wildlife species that occupy or use the project site: _____ Common woodland species _____ _____	
n. Does the project site contain a designated significant natural community? ☐ Yes ☒ No If Yes: i. Describe the habitat/community (composition, function, and basis for designation): _____ ii. Source(s) of description or evaluation: _____ iii. Extent of community/habitat: _____ • Currently: _____ acres • Following completion of project as proposed: _____ acres • Gain or loss (indicate + or -): _____ acres	
o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species? ☒ Yes ☐ No If Yes: i. Species and listing (endangered or threatened): _____ Forest Blue Grass, Northern Long-eared Bat _____	
p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern? ☐ Yes ☒ No If Yes: i. Species and listing: _____ _____	
q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing? ☐ Yes ☒ No If yes, give a brief description of how the proposed action may affect that use: _____ _____	
E.3. Designated Public Resources On or Near Project Site	
a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? ☐ Yes ☒ No If Yes, provide county plus district name/number: _____	
b. Are agricultural lands consisting of highly productive soils present? ☐ Yes ☒ No i. If Yes: acreage(s) on project site? _____ ii. Source(s) of soil rating(s): _____	
c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark? ☐ Yes ☒ No If Yes: i. Nature of the natural landmark: ☐ Biological Community ☐ Geological Feature ii. Provide brief description of landmark, including values behind designation and approximate size/extent: _____ _____	
d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? ☐ Yes ☒ No If Yes: i. CEA name: _____ ii. Basis for designation: _____ iii. Designating agency and date: _____	

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places? ☐ Yes ☒ No	
If Yes: i. Nature of historic/archaeological resource: ☐ Archaeological Site ☐ Historic Building or District ii. Name: _____ iii. Brief description of attributes on which listing is based: _____	
f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory? ☐ Yes ☒ No	
g. Have additional archaeological or historic site(s) or resources been identified on the project site? ☐ Yes ☒ No	
If Yes: i. Describe possible resource(s): _____ ii. Basis for identification: _____	
h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? ☒ Yes ☐ No	
If Yes: i. Identify resource: <u>Cayuga Lake Scenic Byway</u> ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): <u>Scenic byway</u> iii. Distance between project and resource: _____ ± 1.25 miles.	
i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? ☐ Yes ☒ No	
If Yes: i. Identify the name of the river and its designation: _____ ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666? ☐ Yes ☐ No	

F. Additional Information

Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification

I certify that the information provided is true to the best of my knowledge.

Applicant/Sponsor Name Scott Gibson

ADDITIONAL INFORMATION

Additional Information

Question E.2.O

As indicated on the response to question E.2.O., the Northern Long-eared Bat (*Myotis septentrionalis*) was identified as an endangered species in New York State pursuant to 6 NYCRR Part 182 and is protected under New York Environmental Conservation Law (ECL) Article 11. At the federal level, the species is listed as endangered under the Endangered Species Act (ESA), with a species-specific rule addressing incidental take associated with certain forest management and development activities.

Based on NYSDEC guidance¹, comprehensive information on where NLEB occurs is not complete. To protect NLEB from unintentional harm, the Department encourages the voluntary implementation of all forest management activities during the hibernation period-November 1 through March 31 throughout the state-when bats are not expected to be present. However, DEC imposes no restrictions on tree cutting unless a project is located within 5 miles of a known hibernation site or 3 miles of a documented summer occurrence.

A review of the NYSDEC New York Natural Heritage Program (NYNHP) Environmental Resource Mapper (ERM) was conducted to evaluate the potential presence of Northern Long-eared Bat hibernacula, summer roost sites, or other documented occurrences within proximity to the project area. The ERM review did not identify any mapped Northern Long-eared Bat hibernacula, summer roost sites, or other documented occurrences within or in proximity to the project area. No known caves, mines, or other overwintering features were identified on or immediately adjacent to the site.

While NYNHP mapping reflects the best available data and does not constitute a comprehensive inventory, the absence of mapped Northern Long-eared Bat features within proximity to the project area indicates a low likelihood of site-specific impacts.

Project Impact Assessment

The proposed action involves the installation of approximately 550 linear feet of a raw water transmission main, which would occur primarily along an existing recreational trail.

- Tree removal would be limited in extent and restricted to only those necessary to accommodate the water transmission main installation, reducing the potential for impacts to bat habitat.
- Efforts will be taken to conduct tree clearing outside the bat active season (April 1–October 31), thereby avoiding potential impacts to roosting or maternity habitat.
- Snag and cavity trees will be left uncut unless their removal is necessary for protection of human life and property. Snag and cavity trees are defined under DEC Program Policy ONR-DLF-2 Retention on State Forests.
- If any bats are observed flying from a tree, or on a tree that has been cut, tree management activities in the area will be suspended and DEC Wildlife staff notified as soon as possible.

Given the absence of documented occurrences, lack of hibernacula or summer roost sites in proximity, and the limited nature and/or timing of disturbance, the project is not anticipated to result in a take of Northern Long-eared Bat as defined under state or federal regulations, and is not expected to result in any significant adverse impacts to Northern Long-eared Bat or its habitat. Accordingly, no further consultation or species-specific permitting is anticipated at this time.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Tompkins County, New York
Survey Area Data: Version 21, Sep 2, 2025

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Apr 1, 2020—Oct 1, 2020

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Drainage Class

Map unit symbol	Map unit name	Rating	Acres in AOI	Percent of AOI
HsC3	Hudson silty clay loam, 6 to 12 percent slopes, eroded	Moderately well drained	0.4	40.5%
HsD3	Hudson silty clay loam, 12 to 20 percent slopes, eroded	Moderately well drained	0.1	12.0%
HxE	Hudson and Dunkirk soils, 20 to 45 percent slopes	Moderately well drained	0.4	47.5%
Totals for Area of Interest			0.9	100.0%

Description

"Drainage class (natural)" refers to the frequency and duration of wet periods under conditions similar to those under which the soil formed. Alterations of the water regime by human activities, either through drainage or irrigation, are not a consideration unless they have significantly changed the morphology of the soil. Seven classes of natural soil drainage are recognized-excessively drained, somewhat excessively drained, well drained, moderately well drained, somewhat poorly drained, poorly drained, and very poorly drained. These classes are defined in the "Soil Survey Manual."

Description

The term bedrock in soil survey refers to a continuous root and water restrictive layer of rock that occurs within the soil profile.

There are many types of restrictions that can occur within the soil profile but this theme only includes the three restrictions that use the term bedrock. These are:

- 1) Lithic Bedrock
- 2) Paralithic Bedrock
- 3) Densic Bedrock

Lithic bedrock and paralithic bedrock are comprised of igneous, metamorphic, and sedimentary rocks, which are coherent and consolidated into rock through pressure, heat, cementation, or fusion. Lithic bedrock represents the hardest type of bedrock, with a hardness of strongly coherent to indurated. Paralithic bedrock has a hardness of extremely weakly coherent to moderately coherent. It can occur as a thin layer of weathered bedrock above harder lithic bedrock. Paralithic bedrock can also be much thicker, extending well below the soil profile.

Densic bedrock represents a unique kind of bedrock recognized within the soil survey. It is non-coherent and consolidated, dense root restrictive material, formed by pressure, heat, and dewatering of earth materials or sediments. Densic bedrock differs from densic materials, which formed under the compaction of glaciers, mudflows, and or human-caused compaction.

If more than one type of bedrock is described for an individual soil type, the depth to the shallowest one is given. If no bedrock is described in a map unit, it is represented by the "greater than 200" depth class.

Depth to bedrock is actually recorded as three separate values in the database. A low value and a high value indicate the range of this attribute for the soil component. A "representative" value indicates the expected value of this attribute for the component. For this soil property, only the representative value is used.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Tompkins County, New York
Survey Area Data: Version 21, Sep 2, 2025

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Apr 1, 2020—Oct 1, 2020

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Depth to Water Table

Map unit symbol	Map unit name	Rating (centimeters)	Acres in AOI	Percent of AOI
HsC3	Hudson silty clay loam, 6 to 12 percent slopes, eroded	51	0.4	40.5%
HsD3	Hudson silty clay loam, 12 to 20 percent slopes, eroded	51	0.1	12.0%
HZE	Hudson and Dunkirk soils, 20 to 45 percent slopes	51	0.4	47.5%
Totals for Area of Interest			0.9	100.0%

Description

"Water table" refers to a saturated zone in the soil. It occurs during specified months. Estimates of the upper limit are based mainly on observations of the water table at selected sites and on evidence of a saturated zone, namely grayish colors (redoximorphic features) in the soil. A saturated zone that lasts for less than a month is not considered a water table.

This attribute is actually recorded as three separate values in the database. A low value and a high value indicate the range of this attribute for the soil component. A "representative" value indicates the expected value of this attribute for the component. For this soil property, only the representative value is used.

Ithaca Youth Bureau
Shaniqua Lewis, Deputy City Clerk

MEMORANDUM

TO: Common Council
FROM: Gregg Houck
DATE: March 4, 2026
RE: Amendment to 2026 Authorized Personnel Roster- IYB
ITEM #: 5.3

Consent Agenda-This memorandum and resolution seek Common Council authorization to amend the 2026 Authorized Personnel Roster by transferring a vacant Maintainer position from the Department of Public Works to the Ithaca Youth Bureau. The change supports the City's phased alignment of park operations while maintaining service continuity and remaining budget neutral.

Resolution to Amend the 2026 Authorized Personnel Roster – Ithaca Youth Bureau

WHEREAS, the Common Council of the City of Ithaca is responsible for approving the City's Authorized Personnel Roster; and

WHEREAS, the City is implementing a phased approach to align municipal park operations under the Ithaca Youth Bureau; and

WHEREAS, the City remains committed to aligning staffing structures with long-term operational needs as park management responsibilities evolve; and

WHEREAS, this request is consistent with the administrative direction of the City Manager; and

WHEREAS, a vacant Maintainer position currently exists within the Department of Public Works; and

WHEREAS, transferring this position to the Ithaca Youth Bureau supports coordinated park operations and service continuity and does not increase the total number of authorized City positions; and

WHEREAS, both positions are classified at the same grade under the applicable collective bargaining agreement and the action is expected to be budget neutral; now, therefore, be it

RESOLVED, that the Common Council hereby approves an amendment to the 2026 Authorized Personnel Roster to:

- Defund and remove one (1) existing 40-hour Maintainer position within the Department of Public Works; and
- Fund one (1) 40-hour Parks and Recreation Facilities Maintainer position within the Ithaca Youth Bureau;

and be it further

RESOLVED, that this amendment shall take effect March 4, 2026; and be it further

RESOLVED, that the appropriate City officials are hereby authorized to take all necessary actions to implement this resolution.

MEMORANDUM

Date: February 2, 2026

To: Common Council

From: Gregg Houck, Youth Bureau Director

RE: Amendment to Authorized Personnel Roster – Ithaca Youth Bureau

PURPOSE

The purpose of this memorandum is to request Common Council authorization to amend the 2026 Authorized Personnel Roster to support the continued, strategic transition of municipal park operations to the Ithaca Youth Bureau.

EXECUTIVE SUMMARY

The Ithaca Youth Bureau respectfully requests approval to transfer an existing Maintainer position from the Department of Public Works (DPW) to the Youth Bureau by defunding the DPW Forestry subdivision position and funding a Parks and Recreation Facilities Maintainer position within the Youth Bureau.

This request represents a strategic realignment of existing resources and does **not** increase the total number of authorized City positions.

BACKGROUND & STRATEGIC CONTEXT

The City has been implementing a deliberate, phased approach to align park operations under the Youth Bureau in order to create a more integrated, responsive, and community-centered parks system. This work has been undertaken collaboratively with DPW, Human Resources, the Civil Service Commission, and the City Manager's Office to ensure operational continuity while strengthening service delivery.

This request is consistent with the administrative direction established by the City Manager to strategically align parks operations under the Youth Bureau.

A key principle of this transition has been to minimize fiscal impact by realigning existing positions as vacancies occur rather than creating new roles, when possible and practical. This approach supports responsible financial stewardship while allowing the City to modernize its parks management structure in a measured and sustainable manner.

This strategy was successfully executed in 2025 when a vacant Working Supervisor position at Stewart Park was reclassified as **Working Supervisor – Parks** under Youth Bureau leadership.

A Maintainer position within the DPW Forestry subdivision is now vacant. Historically, this role has supported maintenance across several neighborhood parks — functions that increasingly align with the Youth Bureau's expanding operational responsibilities as it advances a coordinated model that integrates park maintenance, recreation programming, and community use of public spaces.

In coordination with Human Resources and the Civil Service Commission, the **Parks and Recreation Facilities Maintainer** title has been established to better reflect the operational needs of a contemporary municipal parks system while maintaining alignment with the existing labor agreement.

Importantly, this action:

- Transfers — rather than adds — a position
- Maintains a strong operational partnership with DPW
- Advances the City's long-term parks management framework
- Supports clearer accountability for park conditions and user experience

Realigning this position will improve day-to-day responsiveness, enhance cross-functional coordination, and better position the City to meet the growing demand for high-quality, accessible park spaces.

RECOMMENDATION

It is recommended that Common Council approve the following changes to the Authorized Personnel Roster effective March 4, 2026:

- Defund and remove one (1) existing 40-hour Maintainer position within the Department of Public Works.
- Fund one (1) 40-hour Parks and Recreation Facilities Maintainer position within the Ithaca Youth Bureau.

BUDGET IMPACT

This action is expected to be budget neutral. Both positions are classified as Grade 6 under the current CSEA-DPW labor agreement and follow the same salary schedule, with an hourly range of **\$22.43–\$26.92**.

Because the position is currently vacant, there is potential for modest salary savings in 2026 depending on the step level at which the position is filled.

RE: Bond Authorization for "Green Hydrogen as a Non-Wires Alternative" Project

ITEM #: 6.1

This resolution increases capital project #938 to \$1,000,000. Additional funds will be derived from the issuance of \$474,000 in municipal bonds to be reimbursed by the Department of Energy, as described and planned for in the 2024 capital project resolution and authorization.

ATTACHMENTS:

[H2_2026_Capital_Project_Rebecca_Evans.pdf](#)

Authorization for the Issuance of \$474,000 Bonds of the City of Ithaca to Support “Green Hydrogen as a Non-Wires Alternative Pilot” Project Funded by Congressionally Directed Spending

Whereas, the City of Ithaca has demonstrated its desire and commitment to be a leader in sustainability and social equity, as exemplified by the adoption of the Ithaca Green New Deal; and

Whereas, the Ithaca Green New Deal resolution was adopted unanimously in June 2019 included a goal of community-wide carbon neutrality by 2030; and

Whereas, in 2021, sustainability staff applied for Congressionally Directed Spending from Senate Majority Leader Chuck Schumer’s office to support a “Green hydrogen as a non-wires alternative pilot project”, which the Senator awarded \$1,000,000; and

Whereas, in March 2024 the City of Ithaca Common Council approved borrowing for \$526,000 for the first two budget periods of this project, which are expected to close in mid-2026; and

Whereas, the remaining balance of \$474,000 will be applied to Budget Periods 3 and 4; and

RESOLVED, that capital project 938 is hereby increased to a total amount of \$1,000,000; and

RESOLVED, that capital project funds shall be derived from the issuance of additional bonds in the amount of \$474,000 to the City; and

RESOLVED, that the city manager is hereby authorized, on the advice of the City Attorney, to negotiate and enter into agreements with appropriate contractors or other counterparties in connection with the “Green hydrogen as a non-wires alternative” pilot project, with funding to be derived from the issuance of bonds to the City and submitted for reimbursement to the U.S. Department of Energy; and

RESOLVED, that the city will continue to support the development and implementation of strategies to accelerate the development of programs to meet the goals established in the Ithaca Green New Deal.

Resolution Establishing a Select Committee on Rules Committee and Order

WHEREAS, the Common Council's Rules of Order and Procedure benefit from periodic review to ensure clarity, consistency, and alignment with best practices; and

WHEREAS, the Mayor and Common Council find that a review to address corrections and updates can be completed within a short time frame; now therefore be it

RESOLVED, that the Mayor and Common Council hereby establish a Select Committee on Rules for the limited purpose of reviewing and proposing amendments to the Common Council Rules of Order and Procedure; and be it further

RESOLVED, that the Committee shall consist of five (5) members of the Common Council and shall meet as necessary to complete its work; and be it further

RESOLVED, that the Committee shall submit proposed amendments in redlined form, together with a brief explanatory memorandum, within thirty (30) days of the effective date of this resolution; and be it further

RESOLVED, that the Acting City Manager shall direct the Clerk's office to provide necessary support for any public meetings and shall direct the City Attorney's office shall work with the Chair to provide drafting support and legal advice; and be it finally,

RESOLVED, that the Committee shall dissolve upon submission of its recommendations, or thirty (30) days after adoption of this resolution, whichever occurs first.

[Resolutin-Revised ReAwakening Mural Res - March 2026.pdf](#)
[ReAwakening the URR Contract \(1\).pdf](#)
[Underground RR Mural cropped nice small.jpg](#)
[Underground RR Mural.jpg](#)

**Resolution to Approve a Mural to be located on the South Aurora
St Bridge Abutment and Wing Walls on Green Street**

WHEREAS, in 2010, artist, Jonathan Matas, painted a mural, with the support of the Downtown Ithaca Alliance, titled *Underground Railroad* on the south Aurora St bridge abutment on East Green Street, and

WHEREAS, in 2025, Ithaca Murals proposed a new mural titled *ReAwakening the Underground Railroad*, in the same location, as well as additional quilt-inspired murals for the wing walls, and

WHEREAS, the proposed mural would have the same theme, contain new images of Harriett Tubman and Frederick Douglas, and include additional imagery, and

WHEREAS, the City of Ithaca Common Council approved the proposed mural, to be painted by artists Maryam Adib, Cyepress Rite and Terrance Van in collaboration with Ithaca Murals and Southside Community Center, in May 2025, and the City executed a contract with the project team to install the mural in June 2025, and

WHEREAS, when the artists completed the mural in the fall of 2025, the mural included the proposed design as well as additional text, including “Free Gaza,” “Black Lives Matter,” and “Choose Love,” and

WHEREAS, the additional messaging was not part of the approved design, and the artists would like the approval to be amended to include all features of the painted mural; now, therefore, be it

RESOLVED, that the City of Ithaca Common Council approves the amended design of the *ReAwakening the Underground Railroad* mural, painted by artists Maryam Adib, Cyepress Rite and Terrance Van in collaboration with Ithaca Murals and Southside Community Center and be it further

RESOLVED, that the City shall execute an updated agreement with Ithaca Murals, as reviewed by the City Attorney’s Office.

MEMORANDUM OF UNDERSTANDING
For Installation of a Mural at E Green Street Under the S Aurora Street Bridge on the
South Abutment and Wing Walls

Made this 24th day of June between:

The **CITY OF ITHACA**, a municipal corporation with offices at 108 East Green Street, Ithaca, New York, hereinafter called the “City”,

And

Center for Transformative Action, through Ithaca Murals, of 211 Pleasant St, Ithaca, NY, hereinafter referred to as the “Artist”.

WHEREAS, Center for Transformative Action, through Ithaca Murals, submitted an application to repaint and expand the existing Underground Railroad mural located on E Greet Street on the South Aurora St bridge abutment and wing walls, and

WHEREAS, the project, titled *Reawakening the Underground Railroad*, focuses on the theme of Black Liberation with prominent figures that impacted Ithaca’s past as well as invoking relevant contemporary issues, and

WHEREAS, Southside Community Center and Ithaca Murals selected a team of artists: Mariyam Adib, Cypress Rite and Terrance Vann to paint the mural, and

WHEREAS, the Common Council approved the new and expanded mural at its meeting on May 7, 2025;

NOW, in consideration of the covenants, conditions, and provisions contained herein, it is hereby AGREED as follows:

1. The Artist agrees to install the mural at the assigned location as set forth in Exhibit A. The Artist agrees to complete the mural as proposed by September 1, 2025. The time of performance may be extended by mutual agreement of both the parties.
2. Due to the nature of the site and its adjacency to a road, the Artist shall ensure that:
 - No minors are permitted to participate in the painting.
 - All work and staging must take place within the area described in the application and attached in Exhibit B. No work will extend beyond the curbline.
 - The Artist shall install access control measures to the work area before work begins. Appropriate access control measures are listed in Exhibit C.
 - Sidewalk closure and pedestrian detour will be permitted subject to the following:
 - The Artist shall be responsible for contacting the City's Department of Public Works to coordinate the timing of the installation and securing any additional permissions as may be required.
 - The City will provide sidewalk closure signs and dictate their locations.
 - The Artist is responsible for installing signs in designated locations at the beginning of each work session and removing them at the end of each work session.
 - The sidewalk must remain open on weekdays between 6am-9am and 4pm-7pm.
3. The relationship of the Artist to the City is that of an independent consultant. As such, the Artist shall receive no fringe benefits from the City including but not limited to medical insurance, retirement benefits, workers' compensation, disability, unemployment insurance or any other benefits or remuneration.
4. The City may terminate this Memorandum of Understanding at any time and reserves the right to have the subject artwork removed from the specified location at any time without cause.
5. The Artist represents that the mural is an original work of the Artist and does not, to the best of Artist's knowledge, infringe upon any copyright or other intellectual property right of any other person. The Artist shall defend, indemnify, and hold the City harmless from any claims against the City arising from the negligence or intentional wrongful conduct of the Artist, or from infringement upon another

person's copyright or intellectual property right. The provisions of this paragraph shall survive the expiration or termination of this Agreement.

6. The City reserves the right to reproduce the accepted work for promotion and archival purposes in both printed and electronic form. The City will not sell reproductions of the work without the written consent of the Artist, which shall not be unreasonably withheld. This shall not preclude the City from using photographs of the artwork in its promotional materials. The Artist shall waive all rights under the Visual Arts Rights Act of 1990 and Section 14.03 of NYS Arts and Cultural Affairs Law, including but not limited to, any such rights that would preclude or constrain the right of the City to remove or relocate the accepted artwork. The provisions of this paragraph may be assigned by the City to any successive owner of the real property where the accepted work is installed. The provisions of this paragraph shall survive the expiration or termination of this Agreement.
7. The Artist agrees to indemnify and hold harmless the City, and its respective elected officials, public officers, boards, committees, employees, members and agents from and against all claims, actions, suits, demands, damages, liabilities, obligations, losses, settlements, judgments, costs and expenses (including without limitation reasonable attorney's fees and costs), whether or not involving a third party claim, which any or all of them may incur, resulting from bodily injuries (or death) to any person, damage (including loss of use) to any property, other damages, or contamination of or adverse effects on the environment, caused by the acts or omissions of Artist or Artist's employees, agents or subcontractors, in connection with this Agreement.
8. If the accepted work is vandalized or otherwise requires maintenance or upkeep, the City may choose to contact the Artist to perform needed repairs or maintenance; however, the City in its sole discretion may opt to have the work repaired or maintained by a third party or removed entirely. Nothing in this paragraph shall be construed to alter, modify, or revoke the City's right to remove the work under paragraph 3 of this agreement. Nothing in this paragraph shall be construed to alter, modify, or revoke the Artist's waiver of rights to the work contained in paragraph 5 of this agreement.
9. The Artist shall not discriminate against any employee, applicant for employment, subcontractor, supplier of materials or services or program participant because of actual or perceived age; creed; color; disability; domestic violence victim status; ethnicity; familial status; gender; gender identity or expression; height; immigration or citizenship status; marital status; military status; national origin; predisposing genetic characteristics; race; religion; sex; sexual orientation; socioeconomic status; or weight.

A condition for entry into this agreement is the presentation by the Artist to the City of Ithaca of either proof that the Artist provides the levels of workers' compensation and disability coverage required by the State of New York or that the Contractor is not required to provide such coverage.

10. The Artist shall comply with all State laws and Federal and Local statutes, ordinances and regulations that are applicable to the performance of the Agreement.

[Mayor- Resolution Establishing a Special Committee-CUSP.pdf](#)

Resolution Establishing a Special Committee on Coordinated Unhoused Services Planning

WHEREAS, on September 15, 2023, the City of Ithaca (“City”) Common Council (“Common Council”) adopted the Pilot Administrative Policy to Manage Homeless Encampments on City Property (“Policy”) that designated a 28-acre City-owned area (the “Southwest Parcel”) where camping by persons experiencing homelessness would be temporarily allowed as an exception to the citywide prohibition on camping on City lands; and

WHEREAS, on September 20, 2023, the Common Council adopted the Response Protocol to Unsolicited Encampments on City Property (“Protocol”) and it has now been in effect for two full years; and

WHEREAS, on January 15, 2023, the Common Council established an Advisory Committee to Review and Evaluate Homeless Encampment Policies and Protocols with the mandate to review and evaluate the implementation of the Policy; and

WHEREAS, the City has continued to commit significant financial, administrative, and public safety resources toward implementation of encampment management and related outreach efforts; and

WHEREAS, on May 7, 2025, the Common Council adopted an updated Policy and Advisory Committee Report, calling for the development of a homeless services navigation hub facility and improvements to the Southwest Parcel where camping is temporarily permitted per the Policy, and

WHEREAS, in 2025, a jointly proposed City–County homeless services facility did not advance following withdrawal by Tompkins County, underscoring structural challenges in intergovernmental coordination, site selection, capital planning, operational governance, and cost-sharing arrangements; and

WHEREAS, the Mayor and Common Council recognize that durable progress on homelessness requires clear accountability, defined roles between municipal partners, realistic fiscal planning, early legal review, and a transparent public process; and

WHEREAS, the Mayor and Common Council seek to reduce reliance on camping at the Southwest Parcel and at unsanctioned outdoor encampments by establishing a structured, limited-stay, service-connected alternative; and

WHEREAS, the Mayor and Common Council find that outreach to individuals residing in encampments must prioritize rapid stabilization through determination of eligibility for social services, public benefits, housing vouchers, behavioral health services, and other programs that support transition to permanent housing; and

WHEREAS, the Mayor and Common Council further finds that a structured, limited-stay “Shelter of Last Resort” program should be developed and implemented to reduce reliance on outdoor encampments and bridge individuals to permanent housing;

WHEREAS, prior efforts have demonstrated that informal or loosely structured working groups are insufficient to sustain momentum, resolve policy differences, or produce actionable legislative and budgetary outcomes; now therefore be it

RESOLVED, that the Mayor and Common Council hereby establish a Special Committee on Coordinated Unhoused Services Planning (“Special Committee”), effective upon adoption of this resolution, authorized to operate through December 31, 2027; and be it further

RESOLVED, that the charge of the Special Committee shall be to (1) reevaluate the 2023 Policy to identify its successes and challenges while de-promoting camping at the Southwest Parcel and elsewhere on city property in the interest of public health; (2) centralize key city personnel responsibility for programming, outreach, and partnership with the regional services¹ while assessing the feasibility of assigning this responsibility to the newly established “Responders Offering Outreach, Trust, and Support” (“ROOTS”) team; and (3) develop, recommend to Council, and, if adopted, oversee implementation of a 2026 “Shelter of Last Resort” Program structured as a limited-stay, service-connected temporary dwelling model designed to reduce reliance on outdoor encampments and bridge individuals to permanent housing; and (4) establish a standardized outreach protocol requiring determination and documentation of eligibility for housing assistance, public benefits, behavioral health services, and other stabilization programs as a first-line intervention during encampment engagement; and be it further

RESOLVED, that the Special Committee shall consist of three (3) members of the Common Council; and be it further

RESOLVED, that the Special Committee shall consist of five (5) ex officio non-voting members of the city administration: the Director of the Community Justice Center, the City’s Encampment Response Coordinator, Director of Community Development, Director of Planning, and the Chief of Police, or their respective designees; and be it further

RESOLVED; that the City Manager shall direct the City Controller to prepare preliminary fiscal scenarios for each service model evaluated, including five-year operating projections, capital project implementation, and identification of funding gaps; and be it further

RESOLVED, that the Special Committee shall meet monthly at a time deemed feasible, with additional meetings scheduled as necessary, shall be fully compliant with Open Meetings Law, and shall have at least 30 minutes set aside for public comment at each meeting; and

RESOLVED, that the Special Committee shall engage stakeholders including, but not limited to, Tompkins County officials, service providers, neighborhood representatives, law enforcement, individuals with lived experience of homelessness, and relevant nonprofit and housing organizations; and

RESOLVED, that no later than one hundred and eighty (180) days after the effective date of this resolution, the Special Committee shall adopt an Implementation Framework outlining preferred governance structure for city-led outreach efforts and shelter-of-last resort administration, fiscal commitments, service standards, and anticipated County participation thresholds; and

RESOLVED, that prior to advancing any operating expense or capital recommendation to Common Council, the Special Committee shall confirm in writing that (1) a binding intermunicipal agreement framework has been drafted (2) a cost-sharing formula has been formally negotiated; (3) identified funding sources are viable and not speculative and (4) operational leadership and oversight structure are clearly defined; and be it further

RESOLVED, that the Special Committee shall adopt a final report including recommended legislative actions, fiscal impact statement, implementation timeline, and contingency strategies; and be it finally

RESOLVED, that the Special Committee shall be dissolved immediately upon submission of its final report to the Common Council, or on December 31, 2027, whichever occurs first.

MEMORANDUM

TO: Common Council
FROM: Alderperson Robin Trumble
DATE: March 4, 2026
RE: Flock Safety
ITEM #: 10.1

Common Council will consider a member-filed resolution directing the City to terminate its contract with Flock Safety due to concerns about privacy, civil liberties, and reported misuse of its license plate reader and detection systems nationwide. The resolution would immediately suspend use of the equipment and require its removal from City property upon contract termination.

MEMORANDUM

TO: Common Council

FROM: Robin Trumble, Alderperson

DATE: 2/5/2026

SUBJECT: Resolution to end our relationship with Flock Inc.

Executive Summary

The purpose of this memorandum is to provide context, rationale, and examples from other U.S. municipalities that have undertaken similar actions in response to concerns about data privacy, federal access to surveillance technology, and community trust, particularly in jurisdictions committed to protecting immigrant and marginalized community rights.

Background

The City of Ithaca has long affirmed its commitment to civil liberties, privacy, and nondiscrimination, principles codified in its sanctuary city policies. Numerous cities across the country have confronted similar challenges regarding surveillance cameras reliant on AI, automated license plate readers (ALPRs), gunshot audio detection, and related surveillance technologies provided by private vendors such as Flock Inc. These technologies collect data that can be accessed, formally or informally, by federal agencies, including immigration enforcement bodies, without clear local oversight.

While proponents argue that such surveillance tools can assist law enforcement in solving crimes and recovering stolen property, critics point to documented instances where data was accessed by outside agencies without explicit local authorization, fueling privacy concerns and eroding public trust. These concerns resonate deeply within sanctuary-oriented municipalities that prioritize community cooperation with local services without facilitating federal enforcement activities.

Comparable Municipal Actions

Several cities nationwide have recently taken decisive steps to *terminate, suspend, or reevaluate* their use of Flock Safety equipment or similar ALPR systems due to privacy and federal access concerns:

Santa Cruz, California

- The Santa Cruz City Council voted to terminate *its contract with Flock Safety* amid data privacy concerns following reports that local license plate reader data was accessed by out-of-state and federal law enforcement agencies. The council cited risks that such access could undermine civil liberties, especially within immigrant communities.

Cambridge, Massachusetts

- Cambridge officials ended their agreement with Flock Safety after independent installations of additional cameras occurred without city approval, which officials described as a “material breach of trust.” The council had previously deactivated 16 Flock ALPR cameras due to privacy and data-sharing concerns, highlighting the need for strong local governance over surveillance technology.

Evanston, Illinois

- In response to an audit revealing that Flock Safety was sharing license plate data with federal authorities in violation of state privacy laws, Evanston deactivated all ALPR cameras and moved to terminate its contract early. The findings underscored the importance of compliance with local data-sharing protections.

Syracuse, New York

- Syracuse’s Common Council revoked its agreement with Flock Safety over privacy concerns and the potential for surveillance data to be accessed without appropriate checks — particularly given the city’s significant immigrant population.

Other Washington State Jurisdictions

- Cities including Redmond, Lynnwood, and other small jurisdictions in Washington temporarily turned off their Flock ALPR systems or delayed implementation due to concerns over public records access and privacy transparency, especially after a court ruled that such data could be released under state law.

Mountain View, California

- The Mountain View Police Department deactivated its Flock Safety license plate reader cameras upon discovering that multiple federal agencies had accessed the collected data without authorization, prompting reexamination of the technology’s use in the community.

These examples collectively illustrate a growing national trend in municipalities reasserting local control over surveillance technologies, particularly where such systems intersect with federal enforcement activities without robust local governance or community consent.

Policy Considerations

Ending the contract with Flock Safety and suspending associated surveillance equipment aligns with several core policy objectives of the City of Ithaca:

1. **Protection of Civil Liberties:** Ending reliance on third-party surveillance technology mitigates the risk of unauthorized access to sensitive data, particularly by federal agencies conducting immigration enforcement or probing personal information without warrants.
 2. **Community Trust and Public Safety:** Sanctuary city status and community-oriented policing depend on residents feeling safe and secure in civic engagement, without fear that passive data collection could be used against them.
 3. **Data Governance and Local Oversight:** By reclaiming control over public surveillance assets and data flows, Ithaca prioritizes transparent decision-making and responsible data governance standards.
 4. **Precedent and Best Practices:** As seen in other municipalities, effective public policy requires balancing legitimate law enforcement tools with clear safeguards against misuse and infringement on individual rights.
-

Next Steps

In light of the documented experiences of other cities, the concerns articulated by residents and civil liberties advocates, and the values embodied in Ithaca's sanctuary city designation, this resolution to end the City's relationship with Flock Inc. is consistent with both community expectations and emerging best practices across the nation.

It is recommended that the Common Council adopt the resolution directing the Acting City Manager and City Attorney's Office to oversee contract termination, to suspend use of Flock Safety equipment within the city immediately, to remove the equipment within the city limits, and to oversee implementation of appropriate policies for public safety that safeguard privacy and civil rights.

RESOLUTION TO END THE CITY’S RELATIONSHIP WITH FLOCK SAFETY

WHEREAS, the City of Ithaca (“City”), through its Common Council, has repeatedly committed to being a sanctuary city, as codified in Article VI of its Code, reaffirming this commitment as recently as February 5, 2025; and

WHEREAS, being a sanctuary city explicitly depends on limiting local participation in surveillance or data-sharing practices that could facilitate federal immigration enforcement, erode community trust, or chill the willingness of residents to live work, and engage freely in civic life; and

WHEREAS, the City has an unwavering commitment to protecting the privacy and other civil rights and liberties of its residents and visitors, which makes doing business with a company that does not prioritize those values inappropriate and runs counter to its sanctuary city designation; and

WHEREAS, the City is party to a contract with Flock Safety, dated February 1, 2023 (the “Contract”), through which surveillance cameras have been installed to facilitate law enforcement, including traffic and criminal violations; and

WHEREAS, there are proven instances of Flock Safety infrastructure being used by federal agents for information purposes even without specific authorizations from the contracting locality; and

WHEREAS, the City has reviewed reports that, either intentionally or through its negligence, Flock Safety has permitted federal agents from Immigrations and Customs Enforcement (ICE) and the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) to use query results from its database of state and local ALPR data to investigate and persecute immigrants throughout the United States; and

WHEREAS, the City recognizes cooperation with broad or unchecked federal surveillance or enforcement efforts potentially accessible by agencies like ICE can undermine community trust and disproportionately harm immigrant and marginalized communities; and

WHEREAS, the City has reviewed reports that, either intentionally or through its negligence, Flock Safety has permitted state and local law enforcement to query results from its database of other states’ and localities’ local ALPR data to investigate abortion care seekers and that Flock has created insufficient security measures around its database search features which has resulted in users being able to easily circumvent its safeguards, such as stating the purpose of their use of the database with vague descriptions like “investigation” and even non-responsive descriptions like “Hehehe”; and

WHEREAS, the City has reviewed reports that, either intentionally or through its negligence, Flock Safety has permitted state and local level law enforcement to query results from its

database of state and local ALPR data to investigate persons exercising their First Amendment freedom of speech and association rights by attending peaceful political rallies and protests; and

WHEREAS, it has been reported that, due to Flock Safety's inadequate system security, hackers have been able to gain access to Flock's ALPR database and as well as its ALPR cameras; and

WHEREAS, in response to the above, in the past eight months more than 30 American municipalities from coast to coast have ended their relationships with Flock Safety; and

WHEREAS, the above information demonstrates the Contract's expressed purpose of enhancing law enforcement "without compromising transparency and human privacy" has been undermined; and

THEREFORE BE IT RESOLVED, that the City of Ithaca Common Council directs the Acting City Manager to work with the Office of the City Attorney to take all legally available steps to terminate the Contract at the earliest possible opportunity to do so; and be it further

RESOLVED, that the City suspend using Flock Safety services and equipment, including Flock Safety License Plate Readers and Flock Safety Gunshot and Audio Detection devices, immediately, until the Common Council votes to reinstate or revoke the use of such devices; and be it further

RESOLVED, that upon termination of the Contract, the City hereby establishes that all Flock Safety equipment, including Flock Safety License Plate Readers and Flock Safety Gunshot and Audio Detection devices, shall be turned off and disconnected by Flock Safety within fourteen days of the enactment of this resolution; and

RESOLVED, that upon termination of the Contract, Flock Safety will remove all related technology as soon as practicable.

MEMORANDUM

TO: Common Council
FROM: Alderperson DeFendini
DATE: March 4, 2026
RE: REST- PASHNY Acts.
ITEM #: 11.1

A Resolution of Support for New York Legislation: The Rent Emergency Stabilization for Tenants (REST) & Permanently Affordable Social Housing for New Yorkers (PASHNY) Acts.

ATTACHMENTS:

[Jorge D- REST & PASHNY Acts \(1\).pdf](#)

A Resolution of Support for New York Legislation: The Rent Emergency Stabilization for Tenants (REST) & Permanently Affordable Social Housing for New Yorkers (PASHNY) Acts.

WHEREAS, the Common Council of the City of Ithaca believes that housing is a human right, and every resident of Ithaca deserves access to a safe, affordable, stable place to live, and build their lives with their families; and

WHEREAS, in 2019, the New York State Legislature passed the Housing Stability Tenant Protection Act (HSTPA) which, among other reforms, set out to establish a mechanism for localities outside of New York City and its surrounding counties to opt in to the Emergency Tenant Protection Act (ETPA) of 1974 to increase housing stability and affordability; and

WHEREAS, the federal government is acting to withdraw significant resources and subsidies for the creation, rehabilitation, and maintenance of affordable housing—actions that are already creating a slowdown in affordable housing production; and

WHEREAS, current tools for incentivizing the private development of affordable housing like tax breaks and financing and zoning incentives have not produced housing at the scale, speed and depth of affordability needed; and

WHEREAS, during the City of Ithaca’s 2024 Budget Process, \$50,000 was allocated in restricted contingency to conduct a housing vacancy study to determine the City of Ithaca’s eligibility to opt in to ETPA. However, due to budgeting constraints and concerns around how many housing complexes within the City of Ithaca would be covered by ETPA, the funding for the vacancy study was encumbered by the Planning Department during the 2026 Budget Process; and

WHEREAS, ETPA was signed into law over 50 years ago and was designed based on the rental housing stock of New York City, and must be modernized and adjusted to reflect the local needs of other parts of New York State ; and

WHEREAS, four localities have identified a vacancy rate of below 5%; however, due to repeat lawsuits over process details by real estate interests with higher litigation budgets than upstate localities, none of them have been able to fully implement ETPA; and

WHEREAS, Senator Brian Kavanagh and Assemblymember Sarahana Shrestha have introduced the Rent Emergency Stabilization for Tenants (REST) Act, a bill which would expand the eligibility for, and applicability of ETPA for upstate New York and Long Island; and

WHEREAS, the REST Act would grant localities the ability to utilize publicly accessible data, rather than be confined to the unfunded yet required vacancy study, to opt in to ETPA; and

WHEREAS, the REST Act would grant localities more liberty in determining eligibility for rent stabilization by changing the year-built requirement to 15 years before the current date, and enabling local control over the unit-count eligibility threshold, so that ETPA is aligned with local conditions in outside-NYC municipalities; and

WHEREAS emissions from homes represent a significant portion of New York State's total greenhouse gas emissions; and

WHEREAS, the Permanently Affordable Social Housing for New Yorkers (PASHNY) act, sponsored by Assemblymember Emily Gallagher in the New York State Assembly and State Senator Cordell Cleare in the New York State Senate, would create a new, well-funded public authority authorized to build, acquire, and rehabilitate permanently affordable, ecologically sustainable, union-built housing for public and community ownership; and

WHEREAS, because the Social Housing Development Authority relies on public action, removing the need to rely on private developers, and would have the power to finance, design, acquire and construct housing that is protected from market forces, it would be able to quickly build and rehabilitate tens of thousands of energy efficient, permanently affordable homes across the state with union labor and sustainable construction techniques.

NOW THEREFORE BE IT RESOLVED, that the Common Council of the City of Ithaca supports and endorses the REST Act which would address the issue of ETPA covering so few tenants in the City and allow for the intent of the HSTPA to be fulfilled, if constituents desire it; and

BE IT FURTHER RESOLVED that the Common Council of the City of Ithaca calls upon the New York State Legislature to pass and Governor Kathy Hochul to sign A.6265/S.5674 in relation to creating a Social Housing Development Authority; and

BE IT FURTHER RESOLVED that the City Clerk will send this resolution to Assemblymember Kelles, State Senator Webb, and Governor Hochul, as well as Housing Chairs Senator Kavanagh and Assemblymember Linda Rosenthal.

[Pat S- Final Res Public Petitioning at Committee of the Whole Meetings.pdf](#)

Resolution Authorizing Public Petitioning at Committee of the Whole Meetings

WHEREAS, the City Council recognizes the importance of public participation in municipal governance and affirms the right of residents and other interested persons to petition their elected representatives on matters over which the council has authority, influence, funding responsibility, or formal policy position; and

WHEREAS, the Committee of the Whole serves as a forum for discussion, deliberation, and policy development prior to formal legislative action by the City Council; and

WHEREAS, allowing petitioning at Committee of the Whole meetings will enhance transparency, improve public understanding of issues under consideration, and assist Council Members in their deliberations; and

WHEREAS, the City Council retains the authority to establish reasonable, content-neutral rules governing public participation in order to ensure the orderly and efficient conduct of meetings, including the restriction of public comment to matters pertaining to city business,

NOW, THEREFORE, BE IT RESOLVED that Common Council amend the Rules of Procedure II.5. as shown in appendix A.

Appendix A:

11.(5) Petitions and Hearings of Persons Before Council

Whereas democracy relies upon the participation of elected officials and constituents alike, at the beginning of each Common Council meeting, the Common Council shall provide 60 minutes of public comment, or such other amount of time as the Chair may permit on the meeting agenda. [At the beginning of each Committee of the Whole Meeting, the Common Council shall provide 30 minutes of public comment, or such other amount of time as the Chair may permit on the meeting agenda.](#) The time shall be allotted for those nonmembers who wish to express their views on anything pertaining to City business. Persons not members of Common Council shall be accorded the privilege of the floor and be permitted to speak for three minutes in regards to matters within the scope of the powers of Common Council. [No petitioner may transfer unused time to another speaker, and all remarks shall be addressed to the presiding officer.](#) All persons speaking before Council will observe the Rules of Order posted in Common Council Chambers (See Section III(d)).

Resolution Supporting the Principles of Dignity Not Detention Act and New York for All Act

WHEREAS, state and local governments exist to serve the health, safety, and well-being of all community members and to manage public resources responsibly; and

WHEREAS, clear boundaries between state, local, and federal authority promote effective governance, protect civil rights, and maintain community trust; and

WHEREAS, community members should be able to access schools, healthcare, housing, and other essential services without fear of federal immigration enforcement; and

WHEREAS, legislation currently under consideration in the New York State Legislature, the Dignity Not Detention Act (S316/A4181) and the New York For All Act (S2235/A3506), would reinforce these principles by limiting the use of state and local resources for immigration detention and clarifying interactions with federal immigration authorities; now, therefore, be it

RESOLVED, that the City of Ithaca supports the principles of these bills and urges the New York State Legislature to pass, and the Governor to sign, legislation that:

- Prohibits the use of state and local facilities for federal civil immigration detention, including terminating existing agreements; and
- Limits how state and local agencies may collect, share, or act upon information regarding a person's immigration status; and be it further

RESOLVED, that copies of this resolution be transmitted to the Governor of New York, the leaders of the New York State Senate and Assembly, and other appropriate state officials to inform them of the community's position.

MEMORANDUM

Date: March 4, 2026
To: Common Council
CC: Department Heads
From: Dominick Recckio, Acting City Manager
RE: City Manager's Report to Council

Common Council,

This report comes on the heels of a productive month for the City. A significant number of large-scale projects and initiatives are in motion, in addition to the ongoing day-to-day work of operating the City and serving the public.

I am happy to answer any questions at the upcoming Council meeting or in writing at your request.

An ongoing thanks to the many colleagues at the City who share my commitment to ensuring stability in a time of transition and prioritizing critical projects that benefit the entire organization and community.

I. Vacancy Report

- a. Please find an addendum to this report listing the current City staff vacancies.
- b. As of February 25, the vacancy rate stands at 7.83% (-1.4% from January 28). The budgeted rate is 5.5%.
 - i. The 5.5% budgeted rate is the total annual figure. A true annual vacancy rate is not available this early in the year, though you may want to consider the average based on this and January's report (8.5%).
- c. Staff are also monitoring anticipated vacancies. At least six retirements or resignations are expected (three within the next 90 days) before the midpoint of this year. HR continues to work with employees who express their intent to retire or separate from City service.

II. Financial Report

- a. Please find a second addendum to this report with the monthly financial report as requested by Council. This March 4 report includes year-to-date actuals from the last available full month (January).
- b. This month's financial report provides a more accurate and detailed accounting of the City's expenses and revenues, anticipated debt payments, and overall debt position.
- c. The Bonadio Group continues its consulting work on the city's financial systems and reporting.

III. Department Head Searches

- a. Controller's Office
 - i. Second-round interviews have been completed. Common Council will receive the City Manager's recommended candidate for approval in an upcoming meeting.
- b. Human Resources
 - i. Second-round interviews are scheduled for the week of March 2. Common Council will receive the City Manager's recommended candidate for approval in an upcoming meeting.

I look forward to onboarding the HR Director and Controller in a coordinated fashion as they will be working closely together. Thank you to Madlyn Allen (HR) and all Council members, staff, and community partners who have participated throughout the process.

IV. Community Responder Program and Community Justice Center

- a. An internal kickoff meeting is being planned to take the next steps of bringing the ROOTS Community Responder team to fruition. The kickoff includes key internal departments/staff and the agenda includes: Revisit Program Proposal (adapted from 2025 presentations), Review Mission/Vision, Drafting Job Descriptions, Developing Training Program, Drafting Program Policies and Procedures, Ensuring Effective Partnerships (Internal and External), Equipment Needs, Program Budget, and Planning to Measure Program Success – Data.
- b. The Community Justice Center is working on several projects with IPD, including an upcoming survey regarding officer wellness and a new recruitment video campaign.

V. Parking

- a. Following staff discussions related to downtown on-street parking availability, and following a related request from the Downtown Ithaca Alliance, an analysis is being conducted of on-street parking spaces and where opportunities may exist to add on-street parking, adjust loading zone areas, and increase the number and distribution of accessible parking spaces. Staff have reviewed an initial list of priority areas, a list of areas identified by the DIA, and opportunities for signage and functional improvements. Common Council will receive a proposed ordinance in the coming months including the changes being sought by staff in conjunction with community partners.
- b. Downtown Parking Validation Program Update:
 - a. Staff continue to explore the possible implementation of a parking validation program with the Downtown Ithaca Alliance. Validation programs allow participating businesses to offer discounts to their customers and employees.
 - b. A survey was sent to downtown businesses (59 responses).
 - i. A majority of respondents indicated that they are not interested in contributing to the subsidization of parking for their customers or staff.

- ii. 12 businesses responded with some interest to help cover parking costs as part of a customer validation program, with 6 saying they would be interested in covering 100% of validation costs.
- iii. 21 businesses responded that they either already do cover or would be willing to cover costs of staff parking validation, with 13 saying they would be interested in covering 100%.
- c. City staff (Acting City Manager, DICE Permits Team) are meeting with the DIA to discuss next steps to implement a program scaled appropriately to the local business and employer interest.

VI. Snow Removal

- a. Department of Public Works leadership staff will be attending the March 11 Committee of the Whole meeting to provide a briefing on snow removal activities this winter. The briefing will include an overview of the work that goes into clearing City streets and sidewalks of snow, a review of recent snow events with any identified opportunities for continuous improvement, and plans that have been put in place for future snow removal opportunities.
- b. On February 13, the City published a press release reminding residents of sidewalk snow removal requirements.
 - i. City Code (Chapter 178-3, Item J-4) requires that sidewalks be kept free from snow and ice. If a sidewalk is not cleared within the required timeframe and the City removes the snow, the cost of that removal will be charged to the property owner. These requirements are essential to maintaining safe, accessible routes for pedestrians, including children walking to school, older adults, and residents with mobility challenges.
 - ii. Pursuant to the Code, several sidewalks were cleared by DPW, and those property owners will be charged based on the work completed.

VII. Cornell University Faculty Grant Projects

- a. The 2023 amended MOU for Cornell voluntary contribution to the City of Ithaca included a commitment by Cornell to provide faculty expertise/assistance to the City. As described in the MOU, “Cornell will fund an annual grant (estimated at a cost of \$100,000/year) for a faculty member to work with the City on a project of mutual interest, to be mutually agreed upon by the Cornell-City of Ithaca permanent working group.”
- b. City staff and working group representatives are in contact with Cornell to move two projects forward in 2026. Updates will be provided in future meetings on the content and progress of these two projects. The working group meets in March.

Emerging issues and ongoing priorities:

- Development and implementation of executive departmental work plans
- Establishing and maintaining a collaborative working relationship with Tompkins County and other local government entities
- Preparing for a successful budget kick-off in May and any necessary mid-year budget adjustments
- Strengthening public information and communication efforts, including the launch of an updated City Website, email newsletter system, and increased internal and external communications on critical topics
- Administrative Policy Manual updates in coordination with HR and the Attorney's office
- Labor contract negotiations
- City vehicle fleet management: procurement and maintenance
- Capital Projects planning (clean-up of past data sets and preparing a five-year capital plan for the 2027 budget)
- City facilities planning, including planning to address deferred maintenance and critical facility improvements and repair needs
- FEMA Letter of Map Revision (LOMR) process to address flood risk and Flood Insurance Rate Maps (FIRMs)

2/26/2026 Vacancy Report

[illegible]

MEMORANDUM

Date: March 4, 2026
 To: Common Council
 From: Dominick Recckio, Acting City Manager
 Wendy Cole, Acting Controller
 RE: Monthly Financial Report

This March 4 report provides an update from the previous template report, populated with up-to-date actuals from the last available full month (January, 2026).

GENERAL FUND REVENUES (THROUGH 1/31/2026)

Revenue Item	Budgeted 2026	Actual 2026	% of Budgeted Collected Through 1/31/26	Notes
Fees	\$20,810,664	\$782,093	4%	
Sales Tax	\$19,939,500	\$928,369	5%	
Misc Tax	\$4,711,394	\$95,090	2%	Many of these expected payments come as one-time payments later in the year
Property Tax	\$34,772,582	\$10.5 million	30%	Approx. based on prior year(s) performance and receipts to date. Note: many payers use installment plans.
Interfund Trans.	\$1,815,930			
State & Fed Aid	\$3,946,081			Typically received later in the year
Total Revenues	\$85,996,151	\$12,035,552		See approx. note above

Revenue Highlights

While January is typically a slow month for fee revenues (winter season, student return, etc.), parking revenues are reported as being on pace for what was budgeted. When additional months' data are available, a more thorough analysis of parking revenues will be provided.

The Chamberlain's Office reports that we are seeing a normal property tax collection rate so far this year. Many property taxpayers take advantage of an installment plan, spreading revenues over the year.

The New York State Comptroller's Office reports that January 2026 City of Ithaca Sales Tax Collections are up 8% over the prior January. Last year (2025) January was up 2.6% compared to the prior year (2024).

GENERAL FUND EXPENSES (THROUGH 1/31/2026)

Expense Item	Budgeted 2026	Actual 2026	% Expended Through 1/31/26	Notes
Personnel	\$35,670,497	\$2,815,080	8%	
Fringe Benefits	\$25,333,035	\$1,525,841	6%	
Operating	\$15,204,568	\$602,777	4%	
Miscellaneous	\$3,307,054	\$451,784	14%	Includes 1 st qtr insurance payment
Debt	\$9,627,800	\$1,441,698	15%	
Total Expenses	\$89,142,954	\$5,395,482		Total budgeted expenses are higher than budgeted revenues due to inclusion of vacancy rate and TCAT payment from City fund balance

Expense Highlights

January is a slow month (as noted above), so expect operating expenses to increase when warmer weather arrives and other activities begin.

Personnel expenses are on target, and show as slightly higher in January because of “comptime” payouts that annually occur in that month and higher (expected) overtime due to two holidays.

MOST RECENT DEBT SERVICE PAID (ALL FUNDS)

Date Paid	Debt Instrument	Principal	Interest	Total Due
2/1/2026	Public Improvement Refunding Serial Bonds	0	\$30,400	\$30,400
2/13/2026	BAN Payments	\$9,499,773*	\$1,816,455	<i>Excess payment made to continue lowering BAN load, see note (*) below. Payment is a mix of general and other funds so will not show entire amount</i>

				<i>in April report for February actuals.</i>
2/15/2026	2013A Serial Bonds	\$710,000	\$152,090	\$862,090
2/15/2026	2016 Serial Bonds	\$495,000	\$223,653	\$718,653
2/15/2026	2019 Serial Bonds	\$870,000	\$160,988	\$1,030,988
2/15/2026	2018 Serial Bonds	\$840,000	\$197,475	\$1,037,475
2/15/2026	2021A Serial Bonds	\$800,000	\$129,763	\$929,763
2/15/2026	2022 Serial Bonds	\$275,000	\$68,600	\$343,600

* This principal payment includes \$6.3 Million paid out of the capital project toward the construction of the East Hill Fire Station, with a portion of that payment being made from the sale of the former Collegetown Fire Station property.

UPCOMING 2026 DEBT OBLIGATIONS (ALL FUNDS)

Due Date	Debt Instrument	Principal	Interest	Total Due
4/1/2026	State Revolving Loan	\$80,000	\$19,039	\$99,039
4/15/2026	2016B Serial Bonds	\$600,000	\$175,013	\$775,013
7/15/2026	2017A Serial Bonds	n/a	\$21,500	\$21,500
7/15/2026	2017B Serial Bonds	n/a	\$97,292	\$97,292
7/15/2026	2019B Serial Bonds	\$285,000	\$101,553	\$386,553

Debt Obligation Highlights:

BANs are paid 2x/year, the next anticipated payment is in July and the next report will include payments expected after July 15 2026.

Remaining Debt Load

Activities in the Controller's Office, including those being completed by the Bonadio Group, will support more comprehensive reporting on the City of Ithaca's debt load. Today, across all funds, the City holds \$151 Million in both short and long-term debt (broken down below)

- Bonds: \$100,385,000
 - Inclusive of debt across all funds (General, Water, Sewer, etc.)

- See Total Debt Service Over Time chart in Appendix A for anticipated principal and interest payments over lifetime of the debt
- Bond Anticipation Notes (BANs): \$51,035,838
 - Inclusive of debt across all funds (General, Water, Sewer, etc.)
 - City has relied more heavily on BANs while awaiting completed audits and re-established credit rating
 - Several recent larger projects with significant outside funding have increased BAN reliance due to need to front costs before reimbursements are received
 - Staff are prioritizing the collection of reimbursable outside funding to reduce BAN load over time

FUND BALANCE POSITION

There are no new updates related to the City's fund balance position, pending impending audit completion. Consultants from the Bonadio Group recently advised Common Council (dialogue on February 11) that their professional recommendation is not to budget using fund balance until this confidence is regained.

As reported in the February 4 Report to Council:

The most recent audited financial statements (2021) indicated a \$16,545,540 general fund balance with \$8,690,044 unobligated or unassigned. In the 2026 budget presentation received by Council, the Controller's Office provided an estimate of \$13.5-14 million in general fund balance as of October 2025 – this number is purely an estimate considering revenues and expenditures from 2021 audited financials and incomplete 2025 point-in-time data.

AUDIT PROGRESS

To proceed with the City of Ithaca's 2022-2025 financial audits, existing financial records and internal financial systems are being corrected and set up to be properly maintained. The Bonadio Group, an industry-leading accounting and consulting firm, has been contracted by the City to provide these services.

Bonadio is communicating with peer firms about the upcoming Request for Proposals from the City for the 2022 audit. This will help create awareness of the opportunity to work with the City and leverages the professional reputation of Bonadio to help ensure success identifying auditors. (Reminder, Bonadio cannot complete independent audits because they are consulting with us for the other financial management work).
