

108 E. Green St.
Ithaca, NY 14850
(607) 274-6565

In-Person Hybrid Meetings: The IURA no longer conducts Public Meetings exclusively remotely. Meetings must be conducted in person, complying with NYS Open Meeting Law (OML), which applies to all IURA Board and Committees. Members of the public who would like to deliver VERBAL comments at a meeting (3-min. max.) are *strongly encouraged* to do so using the Zoom link and log-on credentials listed on the agenda, although they are welcome to do so in person at City Hall. WRITTEN public comments may be submitted before the meeting, using the instructions listed on the agenda. Pls. refer to the [IURA Public In-Person/Hybrid Meetings Policy](#) for more detailed information and further instructions. LIVE-STREAM VIDEO: A *non-interactive* YouTube live-stream of the meeting can also be viewed at: https://www.youtube.com/channel/UC7RtJN1P_RFaFW2lVCnTrDg. Because of a slight delay in launching the live-stream, the video may begin a few minutes before the meeting is formally convened.

AGENDA

IURA Neighborhood Investment Committee (NIC)

1:00 p.m., Thursday, March 12, 2026

IN-PERSON/HYBRID MEETING

(public, staff, & presenters may join remotely)

Common Council Chambers (Third Floor) | 108 E. Green St. | Ithaca, NY 14850

Pre-Register to Join Zoom Meeting:

<https://us02web.zoom.us/meeting/register/VxOz2qywTBaGZAsl6QfkDQ>

Once registered, Zoom will send you an email with further information on how to join.

PUBLIC COMMENTS

WRITTEN public comments may be e-mailed until 3:00 p.m., the day *before* the meeting to: amendizabal@cityofithaca.org. Members of the public who would prefer to deliver VERBAL comments at the meeting (3-min. max.) should either appear in person or use above Zoom link and log-in credentials (for video) or dial-in number and log-in credentials (for telephone).

- I. Call to Order
- II. Changes/Additions to Agenda
- III. Public Comments (if any)
- IV. Review of Minutes: January & February 2026
- V. New Business
 - A. Review/Discuss 2026 HUD Annual Action Plan Applications
 - a. Economic Development
 - b. Public Services
 - B. Summarize Issues/Questions to be Resolved for Next Review
- VI. Other Business
 - A. IURA Grants Summary
 - B. Staff Report
- VII. Motion to Adjourn

If you have a disability and require specific accommodation in order to fully participate, please contact the CITY OF ITHACA CLERK'S OFFICE at 274-6570 or clerk@cityofithaca.org at least 72 hours prior to the meeting.

108 E. Green St.

DRAFT MINUTES

ITHACA URBAN RENEWAL AGENCY (IURA) NEIGHBORHOOD INVESTMENT COMMITTEE (NIC)

9:00 A.M., January 8, 2026

Council Chambers, City Hall, Ithaca, NY

Recording of Meeting:

[meeting recording link TBD]

In attendance: Karl Graham, Vice Chair; Fernando de Aragón; Steve Williams; Mary Baker

Excused: Shaianne Osterreich, Chair

Staff: Anisa Mendizabal, Community Development Planner

Guest(s): Liddy Bargar, Director of Housing Initiatives, Tompkins County Human Services Coalition (HSC)

I. Call to Order

Vice Chair Graham called the meeting to order at 9:07 a.m.

II. Changes/Additions to Agenda

None.

III. Public Comments (if any)

None.

IV. Review of Minutes: December 2025

Motion by Graham, second by Baker. **Approved 4 – 0.**

V. New Business

A. Continuum of Care Updates

Liddy Bargar, HSC Director of Housing Initiatives staffs the Tompkins County (TC) Continuum of Care (CoC). Nels Bohn, IURA Director of Community Development, co-chairs the TC CoC with Cindy Wilcox, HSC Executive Director. She joined to discuss developments in the CoC landscape following HUD's policy changes.

The TC CoC is a local community planning network of public, private, and non-profit partners with the mission of making homelessness rare, brief, and one-time in Tompkins County. CoCs exist across the nation to build and maintain homeless response systems. CoCs collect data for reporting to HUD. Progress toward CoC goals are called System Performance Measures (SPMs). Ms. Bargar's presentation included local SPMs. **Her presentation deck is included at the end of these Minutes.**

Examples of local SPMs: Measure 1: Length of homelessness in TC has increased 20% since 2022 but has decreased 16% since 2023. Measure 5: First-time homelessness has decreased 12% since 2022.

CoCs apply for funding from HUD by responding to its Notice of Funding Opportunity(s) (NOFO). Each NOFO names the priorities for that funding cycle. It is a competitive process. In 2024, Congress directed HUD to issue a NOFO that would fund two years of programming because responding to the NOFO is a large undertaking for CoCs. Awards for the 2024 NOFO competition were announced with TC CoC doing very well in the 2024 NOFO-- all aspects of its proposal(s) were funded. This achievement reflects the work being done in the community.

In July 2025, HUD revoked the prior announcement and notified CoCs that a different NOFO would be issued that reflected the current Administration's policies. The new NOFO, with new priorities and a new tiering system was announced in November 2025. Only 30% of projects can be Permanent Supportive Housing (PSH). In TC, 88% of the projects are PSH, a reduction of 53% locally. Under new priorities, (older) models like transitional housing or support services-only were what CoCs could apply for. Nonprofits and twenty-one states' attorneys general have undertaken lawsuits enjoining the NOFO revocation/reissuance. Currently, the re-issued competition is paused while the lawsuit is in progress. Locally, the Administration's proposed changes to the HUD NOFO would impact the following groups the most: current residents of PSH; youth under age 25; people with disabilities; staff working in housing.

Baker asked (~21:50) how "disabilities" are being defined and how it affects people, especially those under 25. Bargar responded that historically the definition has included mental, behavioral (substance use disorder – SUD), and physical disabilities, HIV+/AIDS, and some other conditions. One of the major changes of the NOFO is how the definition of "disability" was changed – now includes only people over 62 and not necessarily the above. Bargar's presentation includes a slide showing disability status of individuals in emergency shelter—mental health disorders (35%) and SYD (22%) are the most prevalent. Bargar also noted (~30:40) that data show when individuals experienced repeated episodes of homelessness, the severity/number of their

disabilities increased. Developmental disabilities are likely to be underreported—there is an opportunity here to do better. Baker concurred that early diagnosis is key. If a disability is not noticed early, it is harder (and less likely) to be diagnosed and treated later. Services, where they exist, are hard to get (even with diagnosis). Poor outcomes for the individual, such as eventual homelessness beginning in youth, are not unlikely.

[According to CoC analysis, HUD’s proposed changes would result in 60 lost PSH beds at such sites as Chartwell, Magnolia House, Amici House, SJCS permanent housing, and others.]

B. Adjustments to 2025 Project #15 “Work Preserve: Job Readiness” (~58.25)

Mendizabal shared updated information from Historic Ithaca (HI) about its Work Preserve (WP): Job Readiness program. HI asked for and received an extension in submitting its Commitment paperwork [see below for background on what Commitment Materials are] for accepting 2025 CDBG funding for its Readiness program while its Board and Executive Director worked through details. It was received on December 31, 2025.

Background: What Commitment Materials (paperwork) Are: A letter to AAP grantee saying that IURA has committed x amount of funding, and asking the grantee to confirm that it wants the funding and agrees to serve the number of beneficiaries they have indicated (along with brief project description). The letter requests a variety of other pieces of information essential for creating the contract: a resolution from the grantee’s board accepting the information (to confirm the board is aware of the commitment), documentation of insurance coverage, an updated project budget (“Uses & Sources”), contact information who the grantee wants to review the contract, and some other things. Some of the items are relatively easy for the grantee to send, others may be more difficult. For example, the grantee’s board may not meet monthly. If they don’t, the grantee may need more time for the resolution. IURA needs the materials back within about 45-60 days in order to develop contract.

The 2025 HI Work Preserve applications (Job Placement, now cancelled, and Job Readiness) were prepared by HI Staff that are no longer with the agency. Executive Director Zach Lifton submitted a new program summary along with “right-sized” program outline to serve *up to* 15 students annually with job readiness only. However, with the reprogrammed funds from last month [\$3,000 for HI WP: Job Readiness], the beneficiary number will need to be 15 at minimum.

Graham noted the new program description still includes exposure to jobs in the field. How that looks now would be a good question to ask if they bring forward a 2026 application, Mendizabal noted.

HI has recently formed a partnership with New Roots in addition to working with BOCES, which helps them reach youth, albeit – as noted by Committee Members—both of those educational institutions serve young people who are not necessarily City Residents. Williams and Baker wondered how HI would reach City residents. Mendizabal indicated this needs to be underlined. They are required to serve a majority – 51% -- City residents and they need to be LMI.

C. Update – Common Council Legislative Policies

Included in the packet was a summary of the Common Council committee structure, as they exist now—these do not include the new Council members yet. This is for informational purposes only, showing the areas community development that Council is involved in—apart from IURA, but of potential interest to this Committee.

De Aragon noted that the County’s structured approach to including department heads in meetings of committees of the County Legislature – there was alignment between a department’s funded activities and the committees they reported to— which he found very effective. Mendizabal said there were similarities and differences in the City’s version. Yes, there are Common Councilmember liaisons to agencies/departments like IURA. On the staff side, staff members must bring forward information to the Council if there is an advisory committee for the topic being discussed. The City’s process does not seem as structured as the County’s, de Aragon observed. Baker said she’s experienced a lack of communication between departments, particularly relating to actions/activities planned by one that affects the other. Graham noted that NIC could invite the new Common Council liaison to IURA to the NIC meeting to discuss ideas for improving communication.

VI. Other Business

A. IURA Grants Summary

The November 2025 grants summary was included in the packet and Mendizabal provided the much-needed larger format version at Committee member places. She said that going forward she would provide hard copies of the meeting agenda and the large grant summary for everyone and asked that Committee Members let her know if they want anything else printed for them to refer to.

Mendizabal reached out to projects that are moving slower, as part of spenddown vigilance. FLRU reports being on schedule for expenditure of their 2024 funding; Mendizabal informed them they are free to voucher more often. INHS Homeowner Rehab has been able to do two emergency boiler

replacements this winter so far and has a third project in the pipeline—they are doing a lot to try to close out their project. BHU may have a voucher underway; BHU and The Village [fiscal sponsor] may have had a disconnect but the first reimbursement was accomplished. Mendizabal didn't hear back from DICC about the status of the ADA doors, which is unusual. Work Preserve has been covered in prior discussion.

After last night's public hearing on the matter, Common Council adopted the Substantial Amendments put forward in November 2025 for SSCC Fire Panel, Cass Park, and INHS 215 Cleveland Ave, so Mendizabal will inform those grantees.

[Discussed under Staff Report but relevant in this section.] The Cecil A. Malone project is complete but has not submitted its voucher yet. They've conferred with Bohn about cost documentation. Bohn is also in touch regularly with Shared Kitchen Ithaca (SKI).

B. Staff Report

Mendizabal reported briefly on the following:

City Planner Sam Quinn-Jacobs has been working on a publicly available dashboard that will show units of housing and affordable housing. Longtime desire of both staff and residents!

IURA Accountant, Kim Cook, is taking a job at the County. IURA is seeking a replacement.

VII. Adjournment

Adjourned at 10:26 a.m.

108 E. Green St.
Ithaca, NY 14850
(607) 274-6565

DRAFT MINUTES

ITHACA URBAN RENEWAL AGENCY (IURA) NEIGHBORHOOD INVESTMENT COMMITTEE (NIC)

9:00 A.M., February 12, 2026

Council Chambers, City Hall, Ithaca, NY

Recording of Meeting:

https://www.youtube.com/watch?v=ADTFu7dQbcs&list=PLfplo_VA57eoUh2IzCFI1woCvfjMU14oa&index=2

In attendance: Shaianne Osterreich, Chair; Fernando de Aragón; Mary Baker

Excused: Karl Graham, Steve Williams

Staff: Anisa Mendizabal, Community Development Planner

Guest(s):

I. Call to Order

Chair Osterreich called the meeting to order approximately 9:10 a.m.

II. Changes/Additions to Agenda

None.

III. Public Comments (if any)

None.

IV. Review of Minutes: January 2026

One member abstained from voting due to previous meeting's absence. A procedural question came up about whether abstention can be considered a vote. [Following up, [Robert's Rules of Order](#) and IURA Bylaws were consulted. According to Robert's Rules, "... an abstention being a refusal to vote. To abstain means to refrain from voting, and consequently there can be no such thing as an "abstention vote." However, in a subsequent meeting of the IURA Board, alternate approach allowed for Minutes to be accepted in a similar situation.]

V. New Business

Baker noted her upcoming absence for one of the application review meetings. Mendizabal said in the past, absent Committee members shared their comments with the Chair for discussion purposes. The absent member may not vote, however, unless their absence has met the City's criteria for being able to attend virtually. (The criteria is fairly narrow and mainly has to do with absences due to illness.)

A. Action Item – Resolution – 2025 Designation of Ithaca Neighborhood Housing Services as a Community Housing Development Organization (CHDO) and as a Community Based Development Organization (CBDO) (5:00)

Mendizabal distributed the INHS Board List contained board members' addresses, which is relevant to CHDO and CBDO designations (not included in minutes due to personal addresses). This application is 111 pages and includes resumes, which Committee Members have seen before, financial audit and more. INHS bylaws have not changed and are on file.

Mendizabal spoke briefly about the differences about CHDO and CBDO. CHDO requires some things that CBDO, such as financial documentation. You could say CHDO is higher bar. The regulations say that a CHDO can automatically be a CBDO in some cases. IURA Staff analyzed the regulation in regard to INHS' now-greater service area in 2023. Due to INHS history (centered in Ithaca, its original service area), board composition and practice, it seems INHS is substantially similar to an organization that can be a CHDO and CBDO. If passed, this designation will again go to the HUD Buffalo Regional Office for input.

The Chair asked whether there were questions, comments, or concerns.

De Aragón moved for approval; Baker seconded.

**2025 Designation of Ithaca Neighborhood Housing Services, Inc.
(INHS) as a Community Housing Development Organization (CHDO)
and as a Community Based Development Organization (CHDO)**

WHEREAS, the Ithaca Urban Renewal Agency (IURA) has been designated by the City of Ithaca as the Lead Agency to develop, administer and implement the HUD Entitlement Grant program, including funds received through the HOME Investment Partnerships (HOME) program, and

WHEREAS, grant recipients under the HOME program are termed Participating Jurisdictions (PJs), and

WHEREAS, PJs must reserve not less than 15% of their HOME allocation for investment in housing to be developed, sponsored, or owned by Community Housing Development Organizations (CHDOs), and

WHEREAS, each PJ must annually identify CHDOs that are capable of carrying out projects to address priority housing needs identified in the Consolidated Plan, and

WHEREAS, a CHDO is a specific type of community-based non-profit organization as defined in 24 CFR §92.2, and

WHEREAS, on April 9, 2025, Ithaca Neighborhood Housing Services, Inc. (INHS) submitted materials documenting its qualifications and requested renewal of its designation as a CHDO by the IURA, and

WHEREAS, on February 9, 2026, IURA Staff completed a point-in-time review of said documents, and

WHEREAS, at its February 12, 2026 meeting, the Neighborhood Investment Committee of the Ithaca Urban Renewal Agency compared the submitted materials against CHDO criteria and recommends the following: now, therefore be it

RESOLVED, that the IURA, acting in its capacity as the Lead Agency for the Participating Jurisdiction of the City of Ithaca, hereby renews its designation of Ithaca Neighborhood Housing Services, Inc. as a CHDO for the 2025 Action Plan, and be it further

RESOLVED, that the IURA, acting in its capacity as the Lead Agency for the Participating Jurisdiction of the City of Ithaca, and pursuant to 24 CFR §570.204(c)(3) hereby renews its designation of Ithaca Neighborhood Housing Services, Inc. as a Community Based Development Organization (CBDO) for the 2025 Action Plan, pending input from HUD.

Adopted 3-0.

B. Discussion 2026 Annual Action Plan Application Review & Preparation (~9:32)

Mendizabal invited the Committee Members to let her know if they have any Action Planning-related questions, to let her know and she can research if needed and bring information to next meeting.

Current news is that Congress seems willing to support level funding [the same funding as last year] for HUD's CDBG and HOME programs. This is hopeful, though not definite, the Chair noted.

From her consultations, outreach, and technical assistance meetings for 2026 AAP, Mendizabal said it looked as if the Committee could be reviewing several Public Facilities applications. In general, "public facilities" can be a public building, public infrastructure, or an improvement to one of these. They can also be a building where services are offered to the (LMI) public and owned by a private nonprofit. Several nonprofits in Ithaca own their buildings which eventually need upgrades, so sometimes nonprofits apply for Public Facilities (PF) funding.

The Chair asked if this information was new. Mendizabal responded that the information was not new. However, since there may be more PF applications coming forward than have recently, she thought the Committee might be looking for deeper information with which to evaluate or compare them against each other.

General examples of Public Facilities from CDBG Desk Guide: Community centers, health facilities, parks, water/sewer/flood drainage improvements.

Also: Homeless shelters, childcare centers, health centers for people with AIDS.

Area-wide services serve the entire neighborhood or community. Census information determines the public benefit numbers (based on total % of LMI people in the block group). Limited clientele projects serve a specific population with a predominant characteristic in common like children (childcare) or youth (youth centers), people with AIDS, specifically, rather than any health issue.

Steps for determining eligibility.

1. Does the proposed activity meet basic CDBG eligibility? If so,
2. Which National Objective does it fit? Normally, the project is trying to meet the "Primary National Objective" – benefit to LMI people.
3. Next, determine the type of benefit to LMI people. (This is relevant because the type must be documented).
 - a. Area (or "area-wide") Benefit – These are projects that can be used by anyone in the area, in which case, the area must majority LMI.
 - i. With area wide benefit, census data is used to determine the income composition of the neighborhood/area, and it must be majority LMI.
 - b. Limited Clientele- These are projects that benefit a group with a common characteristic.

- i. With limited clientele, the users (clientele) will be asked about household size and income to show that at least 51% of those receiving the benefit are LMI (51% is also the minimum amount of participants that must be City residents).
- ii. Along with household size and income, other data such as demographic information (race, ethnicity) might be collected for HUD.
- iii. Within limited clientele, there are certain groups that HUD automatically presumes to be LMI including unhoused people, severely disabled adults, abused children. The project does not have to collect income data for these groups.

Further considerations: Is the funding for a property owned by a private nonprofit? If so, how can the CDBG investment be protected? What happens if they vacate or sell the property? Example: The property at 618 W. State St. that served as the local homeless shelter for many years was owned by a local nonprofit. There were different operators of services using the building. The nonprofit had an agreement [similar but not the same as an affordability agreement] that required the building to serve LMI people, so whoever the nonprofit rented to needed to fulfill that agreement to provide such services.

The HUD Entitlement application has not changed. The same information is being collected to determine how their project provides benefit to LMI people. Each service “type” (the “area wide”- type uses census, “limited clientele”-type collects self-reported data such as income from clients) reports on how they reach the primary National Objective (benefit to LMI people). Using the SAVE system at intake for limited clientele activities would be new [at time this time, this new requirement of HUD is being challenged in court, so implementation is paused].

C. Information: Latest Tompkins County Housing Snapshot (2024, Released December 2025) (~47:00)

Committee Members might wish to review the County’s latest Housing Snapshot since it overlaps with some of the work NIC does. Some take-aways include higher housing cost burden for renters and perhaps a slight decrease in housing cost burden for homeowners countywide. The Chair pointed out the near absence of new rental or homeowner housing for middle-income earners, and there is little to no funding for that segment. The Housing Snapshot is filled with data, charts, and reporting on actual progress toward the goals stated. NIC could invite the County planners in for a discussion, though with application review, it’s not a great fit timewise.

VI. Other Business

A. IURA Grants Summary

Staff has a meeting scheduled with FLRU to understand how they might start spending down their 2025 funding and how this large amount “online” might affect how much they apply for in 2026.

This year, unlike previous years, reviewers also have the Spenddown Work-out Plan to consider in funding projects.

Historic Ithaca has undergone further staff turnover. Mendizabal has reached out to the HI Board to understand whether it think it will be able to implement the Work Preserve: Job Readiness.

2023 Homeowner Rehab has sent in vouchers (was able to do two boiler replacements and a third project).

B. Staff Report

Discussed with grants summary.

VII. Adjournment

Adjourned by at 10:09 a.m. **3-0.**
