April 1, 2026

ITEM NO. II

**FROM JAMIE FLYNN
EXECUTIVE SECRETARY TO THE CIVIL SERVICE COMMISSION**

This is to advise that the following job specification(s) has been revised. This specification is revised through communication with the Appointing Authority.

**Electrician
Geographic Information Systems Developer
Parks and Recreation Facilities Maintainer**

I, therefore, respectfully request for the above revised job specification be placed into the City of Ithaca Classification Plan.

RESOLUTION:

RESOLVED, that the communication from Jamie Flynn requesting the adoption of the revised job specification listed above be received and placed on file and it be further

RESOLVED, that the revised job specification for the title listed above be adopted and it be further

RESOLVED, that the revised job specification be added to the City of Ithaca Civil Service Classification Plan.

serve a diverse local community; willingness to respond to emergency situations; excellent safety record; physical condition commensurate with the demands of the position.

MINIMUM QUALIFICATIONS:

Graduation from high school or possession of a high school equivalency diploma and three years of experience as a journey-level electrician.

SPECIAL REQUIREMENTS:

1. Candidates must either obtain certification from the City of Ithaca as a Licensed Electrician within twelve (12) months of appointment, or possess a valid Electrician license comparable to a City of Ithaca Electrician license, and must maintain said license for the duration of employment.
2. ~~Candidates must possess a New York State Class B Commercial Driver License (CDL), or a valid Commercial Driver License equivalent to a New York State Class B Commercial Driver License, at the time of appointment and must maintain said license for the duration of employment.~~

GEOGRAPHIC INFORMATION SYSTEM DEVELOPER

DISTINGUISHING FEATURES OF THE CLASS: The work involves responsibility for designing and implementing web based geospatial applications in three ways: a) configuring ready to use applications on cloud mapping platforms ArcGIS Online and GeoCortex Essentials, such as viewers, dashboards and mobile applications, b) extending and customizing ArcGIS Pro Desktop GIS and Geocortex Essentials Viewers and c) developing custom web based geospatial applications using the latest ESRI Application Programming Interface (API), and related web frameworks and current web programming languages. The GIS Developer also creates, updates and manages GIS data and does mapping and map publishing as needed. The GIS Developer assists the GIS Administrator with the product and capacity goals of the GIS Program, in support of City operations. The duties vary according to assignment; however, in general, the incumbent will design and implement tools for the collection, management and delivery of GIS data across the enterprise and assist in managing the modification and operation of the GIS. The incumbent also performs other related professional or technical duties specific to the assignment such as installing GIS software, preparing requests for proposals for GIS services or new hardware/software implementations, developing and administering training materials and programs, and designing and managing geographic databases and data development projects. This class differs from GIS Specialist and Senior GIS Specialist in that the GIS Developer has specific and thorough technical knowledge such that they are responsible for creating and maintaining custom web-based GIS applications on the City's web mapping platforms. The GIS Developer differs from GIS Administrator in that a GIS Developer does not have the overall responsibility for the GIS Program. The work is performed under the general supervision of ~~the department head or other administrator~~ **Geographic Information System Administrator** with leeway encouraged in exercising independent judgment in carrying out the details of the work. Project and task-specific supervision may be exercised over subordinate GIS staff and interns, ~~particularly in the absence of the GIS Administrator~~. Does related work as required.

TYPICAL WORK ACTIVITIES:

- Creates, maintains, and supervises maintenance of GIS data and mapping resources in all phases of data life such as evaluation, acquisition, database design, as well as development of quality control, update and archiving procedures, metadata, and data delivery options;
- Designs and configures ArcGISOnline and GeoCortex Essentials interactive applications, and solutions including map viewers, apps, dashboards, field maps as well as deploying ESRI solutions for City's departmental clients, including user requirements assessment, demonstration apps, documentation, and training;
- Designs, develops and maintains custom geospatial web applications using ESRI ArcGIS Online platform's APIs and related web frameworks as well as current web programming languages; manages code through a repository such as GitHub and creates detailed records and reports relative to that work;
- Designs, extends and customizes GeoCortex Essentials mapping platform viewers using the platform's latest extensibility methods;
- Designs and implements customization of ArcGIS Pro desktop GIS using latest SDK and current programming languages;
- Performs evaluation and analysis of equipment, procedures and implementation options in the design of the GIS as well as users' needs and potential solutions and makes recommendations to the GIS Administrator;
- Creates GIS products on desktop GIS for clients and public;
- Automates management and administration of map content, groups and users on ArcGISOnline in coordination with GIS Administrator;
- Integrates relational databases and applications within and throughout the departments of the City;
- Coordinates and collaborates with multiple staff and departments as well as GIS team to provide excellence in products and service.

Jurisdiction: City of Ithaca

Jurisdictional Class: Non-Competitive

Adopted: 04/06/05

Revised: 11/12/2025, 04/01/2026

Title changed from "Recreation Facility Maintainer": 11/12/25

PARKS AND RECREATION FACILITIES MAINTAINER

DISTINGUISHING FEATURES OF THE CLASS: The work involves responsibility for the skilled maintenance and repair of municipal parks, recreational facilities, and associated infrastructure, including swimming pools, splash pads, ice rinks, athletic fields, sports courts, playgrounds, trails, pavilions, waterfront facilities, park buildings, and open park areas. The work is performed under the general supervision of a supervisor designated by the Youth Bureau Director ~~the Recreation Maintenance Supervisor or Working Supervisor~~, with latitude allowed for the exercise of independent judgment in carrying out the details of the work. The position includes responsibility for ensuring the general maintenance of operational systems and soft services (cleaning, security, preventative maintenance) necessary for safe and effective facility operations. Assignments may require operating equipment, performing manual labor, or leading crews. Does related work as required.

TYPICAL WORK ACTIVITIES: (The following activities are listed as examples only and in no event shall an employee be limited to only those examples listed here.)

Maintains swimming pools including performing tests and recording test results, adding chemicals, and cleaning filters and pumps as required;
Maintains ice rinks including putting in and resurfacing ice;
Maintains grounds including mowing and reseeding grass, trimming trees, mulching, irrigating, storm cleanup, and filling in holes;
Performs skilled repairs to swimming pools, ice rinks, tennis courts, athletic fields, playgrounds, pavilions, waterfront facilities, trails, and similar recreational and park facilities;
Performs skilled maintenance and repairs to buildings and equipment associated with recreational areas including repairing drinking fountains, toilets, water pipes, playground equipment, and other park infrastructure;
Outlines athletic fields and ice rinks for athletic events;
Creates and maintains maintenance and inspection records and reports associated with the work performed;
Contacts vendors and/or orders and picks up parts and supplies as required;
May lead and participate in and oversee the work of a crew;
May perform manual labor and cleaning duties related to recreation facility maintenance and repair;
Conducts preventative inspections of parks, playgrounds, trails, and facility infrastructure to ensure compliance with health and safety standards;
Performs carpentry, painting, masonry, welding, and related trade tasks in support of parks and facilities maintenance;
Provides basic custodial and soft service functions including cleaning, waste removal, supplies replenishment, and basic security tasks to maintain safe and welcoming facilities;
Responds to emergencies, including storm damage, equipment failures, or urgent maintenance needs in parks and recreation facilities

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES, PERSONAL CHARACTERISTICS:

Good knowledge of the chemicals, tools, equipment and practices used in the operation and maintenance of public swimming pools and splash pads; good knowledge of the tools, materials, equipment, and practices used in the operation and maintenance of municipal ice rinks; good knowledge of the tools, materials, equipment and practices used in the layout and maintenance of athletic fields; good knowledge of the tools, materials, equipment and practices used in the maintenance of tennis courts, playgrounds, trails, pavilions, waterfront facilities, and related municipal recreational and park facilities; good knowledge of the tools, materials, equipment and practices used in buildings and grounds maintenance; working knowledge of municipal ordinances related to parks and recreational facilities; ability to safely and effectively use tools and operate equipment related to swimming pool, ice rink, building, park, and grounds maintenance and repair including hand tools, trucks, ice resurfaces, drills, grinders, floor cleaners, tractors, mowers, pool vacuums, and other specialized equipment;; ability to participate in assigned projects and lay-out the work of others; ability to understand and follow written and oral instructions; ability to successfully work with and serve a diverse local community; mechanical aptitude; working knowledge of plumbing, electrical, HVAC, and mechanical systems in municipal facilities for the purpose of recognizing potential hazards, basic maintenance, and minor repairs; ability to maintain light construction equipment and specialized park maintenance machinery; ability to conduct inspections, maintain records, and implement preventative maintenance practices; ability to provide basic custodial and soft service functions to support building operations; ability to work independently and exercise sound judgement in the field; physical condition commensurate with the demands of the position.

MINIMUM QUALIFICATIONS: Graduation from high school or possession of a high school equivalency diploma and three (3) years of full-time paid experience, or its part-time equivalent, in the operation, maintenance and/or repair of park and recreational facilities, which shall have included swimming pools, splash pads, ice rinks, athletic fields, sports courts, playgrounds, trails, pavilions, waterfront facilities, park buildings, and open park areas.

SPECIAL REQUIREMENTS:

1. Candidates must obtain possession of appropriate certifications for CPR, AED, and first aid within (6) months of appointment and maintain said certifications for the duration of employment.
2. Candidates must obtain possession of all mandated workplace safety and equipment operation training certifications within (6) months of appointment and maintain said certifications for the duration of employment.
3. Possession of a valid New York State Class D driver license or equivalent at the time of appointment and maintenance of said license for the duration of employment.
